

**Interim Use Permit 2021-UP-3**

Date: 9/13/22

Attn: Ken Johnson – Brisbane Sr. Planner

---

Ken,

Google has elected to withdraw their request for appeal and extension of the above-mentioned use permit. The request I was asked by Google to bring before City Council is to allow for a 90-day wind down period so that the bus operation can transition smoothly into its next best option. We will continue to maintain the lot for dust and lighting through that period as well as provide the trip reporting like we do currently on a regular basis.

Thank you for your support along with that provided by other members of City Staff. Please let me know if there is anything further I can do to help in this transition especially pertaining to the 90-day period we are requesting.

Thank you kindly,

*Eric Aronsohn*
