

## **CITY COUNCIL AGENDA REPORT**

**Meeting Date:** February 18, 2021

**From:** Randy Breault, Director of Public Works/City Engineer

**Subject:** Adoption of a Resolution Authorizing the Submittal of a Regional Application for a CalRecycle Grant

### **Community Goal/Result**

Safe Community, Ecological Sustainability

### **Purpose**

To obtain grant funds for the maintenance of city streets.

### **Recommendation**

Adopt Resolution No. 2021-20, "Authorizing Submittal of a Regional Application for Department of Resources, Recycling, and Recovery Grant Funds."

### **Background**

The Department of Resources, Recycling, and Recovery (CalRecycle) administers programs to provide opportunities to divert waste tires from landfill disposal, to prevent illegal tire dumping, and to promote markets for recycled-content tire products.

The Rubberized Pavement Grant Program is designed to promote markets for recycled-content surfacing materials derived from California-generated waste tires. It is aimed at encouraging first-time or limited users of rubberized pavement in two project types – rubberized asphalt concrete (RAC) hot-mix and rubberized chip seal. The City is applying for a rubberized cape seal (of which rubberized chip seal is a component), with reimbursement at a rate of \$1 per square yard applied.

In a rubberized cape seal, a top layer of slurry seal is placed over the rubberized chip seal. The top slurry seal layer provides a smoother wearing surface and reduces the risk of the chips falling out and potentially being kicked up into windshields; therefore, cape seals are preferable on urban streets used by bikes and other active transportation modes.

### **Discussion**

Prior to the release of the current grant cycle, staff reviewed the City's pavement maintenance program and determined that a rubberized cape seal would be a suitable maintenance treatment for Sierra Point Parkway between Lagoon Road and the west end of the Highway 101 overpass. However, this street section's size falls short of the minimum area required for grant

eligibility. Therefore, staff reached out to City of South San Francisco colleagues, and the cities subsequently agreed to submit one joint regional application allowing for both projects to be constructed concurrently to achieve economy of scale.

For the joint application, the City of Brisbane and the City of South San Francisco propose installing:

Brisbane	<b>26,500</b> square yards Rubberized Cape Seal
South San Francisco	<b>14,500</b> square yards Rubberized Cape Seal
South San Francisco	<b>2,700</b> tons of Rubberized Asphalt Concrete

The attached resolution, required as part of the application, authorizes the City of Brisbane to act as a lead participant in any joint application for eligible CalRecycle grant programs within the next five years with the participating jurisdiction(s) in Attachment A of the attached resolution, which may be amended in the future, but now lists only the City of South San Francisco.

#### **Fiscal Impact**

By adopting the proposed Resolution, the city will receive a grant of approximately \$26,500, which is expected to be 15% of the total project cost.

#### **Measure of Success**

The submittal of a joint regional application for any CalRecycle grant program for which the City is eligible, to help fund infrastructure improvements while collaborating with a neighboring jurisdiction to achieve economy of scale.

1. Resolution No. 2021-20

Prepared by: Justin Yuen, Assistant Engineer

Randy Breault, Director of Public Works/City Engineer

Clay Holstine, City Manager

**RESOLUTION NO. 2021-20**

**RESOLUTION OF THE CITY COUNCIL OF THE CITY OF BRISBANE  
AUTHORIZING SUBMITTAL OF A REGIONAL APPLICATION FOR DEPARTMENT  
OF RESOURCES, RECYCLING, AND RECOVERY GRANT FUNDS**

**WHEREAS**, Public Resources Code sections 48000 et seq. authorizes the Department of Resources, Recycling, and Recovery (CalRecycle) to administer various grant programs (grants) in furtherance of the State of California's (state) efforts to reduce, recycle, and reuse solid waste generated in the state thereby preserving landfill capacity and protecting public health and safety and the environment; and

**WHEREAS**, the Rubberized Pavement Grant Program allows regional grant projects; and

**WHEREAS**, the City of Brisbane is eligible to apply for said program; and

**WHEREAS**, CalRecycle grant application procedures require, among other things, a regional applicant's governing body to declare by resolution certain authorizations related to the administration of CalRecycle grants.

**NOW, THEREFORE, BE IT RESOLVED** that the City Council of the City of Brisbane finds as follows:

1. The City of Brisbane staff is authorized to submit a Rubberized Pavement Grant Program regional application on behalf of itself as Lead Agency and the participating jurisdiction(s) as shown in Attachment A.

2. The Director of Public Works/City Engineer, or his/her designee, is hereby authorized and empowered to execute on behalf of the City of Brisbane all grant-related documents, including, but not limited to, applications, payment requests, agreements, and amendments necessary to secure grant funds and to implement the approved grant project.

3. The Director of Public Works/City Engineer, or his/her designee, is hereby authorized and empowered to revise the list of participating jurisdiction(s) in Attachment A as necessary with each subsequent application; and

4. The City Manager is authorized to enter into a Memorandum of Understanding with the jurisdiction(s) in Attachment A and to take any other related actions consistent with the intention of the resolution.

5. These authorizations are effective for five (5) years from the date of adoption of this resolution.
