Drainage System

Dear Julia,

I'm writing this letter to inform you that along with the foundation design for the property subject of this letter, there will be a full drainage system along the entire perimeter of the new construction. The proposed perimeter's drainage will channel the water coming down from the hill and discharge it to the city's storm drainage system. Water from the proposed roof of the new construction will be directed through down spouts to the same city system. The plan view and details for the proposed drainage system are indicated on page C-2 of the drawing prepared for this project. A reference for the proposed drainage is made as well on the soil report prepared by Michelucci & Associates for the project.

Sincerely,

Abraham Zavala, P.E
