

CITY COUNCIL AGENDA REPORT

Meeting Date: June 17, 2021

From: Clay Holstine, City Manager

Subject: Ad-hoc Subcommittee for Transportation Demand Management Policy

Background: Transportation Development Plans

Transportation Demand Management plans are proposed to be required as condition of approval of any major development in the City. These plans may include a variety of measures to reduce traffic congestion and enhance alternative forms of transportation to and from places of employment.

Brisbane expects that this policy may impact several projects, including Sierra Point, the Quarry and development of the Baylands. In an effort to proactively address new TDM's staff is recommending a City Council Ad-hoc subcommittee of two members be formed. In addition to our projects, CCAG is working on a template that cities in the County may wish to implement.

It is anticipated that the subcommittee may meet up to 3 to 4 times over the next few months to develop broad policy objectives and report back to City Council.

A handwritten signature in blue ink, appearing to read "Clay Holstine".
