To the Esteemed Members of the Zoning Board,

My name is David Butera, and I am writing to respectfully request a setback adjustment for my property located at 133 Ferry Lane.

Although my lot is situated in an R-40 zone, its unique configuration as a long and narrow parcel, measuring 90 feet wide by 500 feet long, presents specific challenges. With the town of Bristol's 25-foot setback requirement, this leaves only 40 feet of buildable width. This limited width creates significant aesthetic challenges for both the exterior and interior layout of a home. We have meticulously designed a house that complements Bristol's architectural style, but to achieve this, the proposed house needs to be 48 feet wide.

In addition, I am seeking relief on the height and area restrictions for the detached garage. To ensure the garage complements the architecture of the main house, we have designed it with a roof height of 22 feet, allowing for headroom on the second floor, and a cupola in the center, bringing the total height to 28 feet. Given the detached garage will have a view of the water, we believe a small, west-facing deck would be a valuable addition. The deck has been designed with a cantilever, ensuring the area below remains open and visually unimpeded.

Thank you for your careful consideration of this project.

Sincerely,
David Butera
