Waypoyset Preserve is one of the many existing land trusts in Rhode Island that have been set aside for preservation due to their natural, ecological, and/or historical significance. The main part of the 28-acre preserve runs just north of Narrows Road in Bristol and extends to Mt. Hope Bay at the confluence of the Kickemuit River. The main trail is most easily accessed from the parking area along the shoreline of Mt. Hope Bay but can also be accessed from Narrows Road, just east of its intersection with Oak St. The main trail traverses the eastern half of the property through an open field, extends over a small stream, and continues into the woods that occupy most of the preserve.

The property was purchased by the Town of Bristol in 1999 and placed in the trust. The preserve supports a variety of indigenous plants and animals within its boundaries and is an excellent place to observe wildlife across a variety of habitats.
