Re: Adaptive Reuse Application - 18 Burnside Street (5 Units) and 1 Resolute Lane (2 Units) with 14 first floor - indoor parking spaces.

Gentlemen:

On behalf of the applicant, I submit preliminary plans for review under Rhode Island's Adaptive Reuse statute (R.I. Gen. Laws § 45-24-31 et seq.). This proposal involves the redevelopment of property located on 18 Burnside Street and 1 Resolute Lane in Bristol, within the Downtown Historic District and on the eastern shore of Bristol Harbor. The proposal also suggests merger of the two parcels at 18 Burnside Street to be known as the Burnside Condominiums.

The application (buyer and seller) seeks approval for the adaptive reuse of historic manufacturing buildings that are currently underutilized and in varying states of disrepair. One of the primary buildings (1 Resolute Lane) is in need of substantial structural rehabilitation due to advanced deterioration.

The project proposes converting these buildings into seven (7) residential condominium units, in a manner that preserves and respects their historic character while addressing longstanding vacancy and functional obsolescence.

The redevelopment will be consistent with the guidelines established by the Rhode Island Historic Preservation & Heritage Commission and the Bristol Historic District Commission. It is also subject to marginal oversight by the Coastal Resources Management Council due to its location within the coastal zone.

Public utilities, including sewer and water, are available to the site. The plan includes at least fourteen (14) on-site parking spaces at the 1 Resolute Lane site, in compliance with applicable zoning requirements.

This adaptive reuse project directly advances the goals of the Town's Comprehensive Plan, which encourages the revitalization of deteriorated, underperforming structures through sustainable and historically sensitive redevelopment. The proposal will not result in any negative environmental impacts. On the contrary, it mitigates ongoing decay and safeguards a valuable architectural and cultural resource through thoughtful reinvestment.

Importantly, the project conforms with existing zoning for residential condominium use, and promotes compact, environmentally responsible development by reusing an existing footprint rather than new construction of 18 Burnside Street.

We appreciate your consideration of this application and welcome the opportunity to present this transformative rehabilitation proposal for your review and input.

Sincerely,

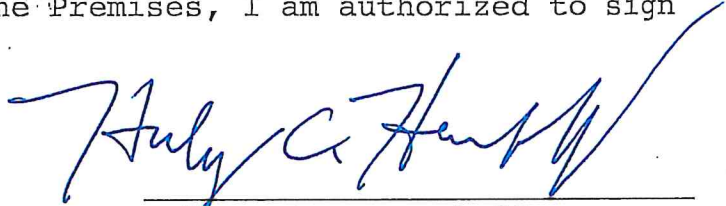

Alfred R. Rego, Jr.

ZONING CERTIFICATE
for
1 RESOLUTE LANE, ASSESSOR'S PLAT 16, LOT 39
BRISTOL, RHODE ISLAND

According to tax assessor's records, the above property is currently owned by the Halsey C. Herreshoff Revocable Trust. This property contains approximately 4,651 square feet of land area and is located within the Manufacturing (M) zoning district. Lot 39 was created in its current configuration in 1969 via recorded deed; and it does not conform to the current minimum dimensional requirements for a lot in the M zone. However, as this parcel was created prior to adoption of Bristol's zoning ordinance it is considered legal nonconforming by dimension. This property is improved with a two-story commercial building that is used for light manufacturing, marine trades, and warehousing. These uses are permitted in the M zone.
