Town of Bristol Planning Board
395 Metacom Ave
Bristol, RI 02809

Dear Town of Bristol Planning Board,

I am writing to share that the open optional comment period that we agreed to conduct, per the Town of Bristol Planning Board's recommendation, has closed. Enclosed you will find the letter that was sent to all abutters of the proposed Bristol Landfill Solar Site. During this open comment period, we received no inquiries from our neighbors. I am writing this letter to notify you the comment period has closed, and thus we are submitting the combined Master/ Preliminary Plan for review and consideration. We understand this optional comment period does not replace the requirement for a Public Meeting and wanted to offer a chance to address questions neighbors may have as a part of our application package.

We look forward to proceeding with the permitting process.

Sincerely,

A handwritten signature in cursive script that reads "Laura Frazier".

Laura Frazier

Director of Operations and Administration
