Re: Bristol Landfill | Request for Conditional Approval for Master/Preliminary Plan and Delay in RI DEM Wetlands Act Approval until Final Plan

To Whom it May Concern,

Please accept this letter as an official request to postpone the Master/Preliminary Permitting requirement of *“written confirmation from the Rhode Island Department of Environmental Management that the plans of the proposed [Bristol Landfill] subdivision, including any required off-site construction, have been reviewed and indicating that the Wetlands Act either does not apply to the proposed site alteration or that approval has been granted for the proposed site alteration.”* We humbly request permission to continue through the permitting process and submit the RIDEM approval documentation during the Final Plan Meeting rather than the Master/Preliminary Plan Meeting. We appreciate the consideration. We understand this would mean we would receive conditional approval until all requirements are met and approval provided by RIDEM.

If you should have any questions, please do not hesitate to contact me directly.

Best Regards,

David Milner
Chief Executive Officer
