RE: 655 Metacom Special Use Permit Application: Cannabis retail facility

Special Use Permit Application Project Narrative

Bristol Board of Zoning Review:

As the architects representing the applicant, Bristol Co-op Incorporated, and preparing the design and construction documents, we are here verifying and explaining our due diligence research of the conditions involved with the Application for Special Use Permit to enable the construction of a proposed Cannabis Retail Store of 3,563 square foot (sf) store in the 32,200 Square foot multi-tenant retail structure at 655 Metacom Avenue.

The site is in the GB, General Business zone and Section 28-82 indicate that this use is allowed, provided it meets the conditions of the Special Use Permit and related provisions of the Cannabis Act.

The proposed store is a 3,563 Square foot store with access-controlled entry to the public retail area of approximately 1,336 sf in the front part of the store and the balance of the area is also access controlled and available for secure storage and staff facilities in the rear. The rear loading area has an exterior secure fenced-in loading zone of approximately 500 sf (25' x 20') and similar electronic access controls.

The applicable code sections are 28-82 Allowable Uses within the GB zone:

Section 28-1 Definitions: Cannabis retailer means, as defined under Section 21-28.11-3(16) of the Rhode Island Cannabis Act, an entity licensed pursuant to Section 21-28.11-10.2 to purchase and deliver cannabis and cannabis products from cannabis establishments and to deliver, sell or otherwise transfer cannabis and cannabis products to cannabis establishments and to consumers.

Section 28-150 (2) This indicates that Cannabis Retail is allowed but with Special Use provisions addressed here. The following Zoning Ordinance sections cited below are pertinent to these provisions and restrictions. Notably 28-150k of the Bristol Zoning Ordinance as the application must meet all the following additional requirements:

"28-150(2) Cannabis retailers/hybrid cannabis retailers by special permit use in certain zones as set forth in Section 28, shall be subject to the requirements of subsection [28-409\(c\)\(2\)](#), and all of the following additional requirements:

- a. *Pursuant to the to Section 21-28.11-17.1(b) (3) of the Cannabis Act, the cannabis facility must not be located within 500 feet of pre-existing public or private school providing education in kindergarten or any grades one through 12. This distance shall be measured by a straight line from the nearest property line of the premises on which the proposed cannabis facility is to be located to the nearest property line of the parcel on which the school is located"* **-We have checked the vicinity and found this location complies and we have included the locus maps in the attachments below.**
- b. *The proposed facility shall implement the appropriate security measures to deter and prevent the unauthorized entrance of areas containing cannabis and shall ensure that each location has an operational security/alarm system"* **JHL and the applicant have met with Town Planner and will make available the plans and measures to the appropriate police and /dire Authorities having Jurisdiction. Affidavits can be provided of the design and specified means proposed. See attachment titled "Project Description – Operations" explains the security measures and that they meet and exceed the requirements set by the Cannabis Control Commission.**
- c. *"Reserved"* **JHL is unclear on this provision**
- d. *All cannabis facilities shall fully comply with all other licensing requirements of the town and the laws of the state."* **The owner is familiar with these laws and has constructed other similar facilities in conformance with local laws. Examples are provided in the attachments**

Section 28-409 (c) (2)

(c) *Standards for relief.* The following shall be standards for relief:

(2) *Special use permit.* In granting a special use permit, the board shall require that evidence to the satisfaction of the following standards be entered into the record of the proceedings:

- a. That the special use is specifically authorized by this chapter, and setting forth the exact section of this chapter containing the jurisdictional authorization;
- b. That the special use meets all of the standards set forth in the subsection of this chapter ([section 28-150](#)) authorizing such special use; and
- c. That the granting of the special use permit will not alter the general character of the surrounding area or impair the intent or purpose of this chapter or the comprehensive plan of the town.

Parking:

Per section 28-252 (4) Retail

The total existing building site has **152 parking spaces provided**

The total existing building area is 32,200 SF Gross Floor Area:

Parking required for General Business Retail per table "other retail uses""
"1 per 300 GFA up to 100,000 sq. ft." or $32,200/300 = 107$ **spaces required**

The proposed tenant space is 3,653 GFA /300 = **12 spaces required**

We find the parking provided is adequate. See attached Site Plan

Signage

Section 28-273, 28-379

Table 1 SIGNS BY TYPE AND ZONING DISTRICT

General Business: Horizontal format (on existing building fascia overhang)

15 square feet, however, as this sign is 180-190 feet setback from street line, we have applied the additional 25% for a **proposed sign sized (2 ft x 9 ft horizontally) = 18 square feet.**

Directory sign:

("8 square feet for each business" **Proposed: 8 square feet**

See attached elevation drawing

Special Use Permit**

Project Description - Operations

655 METACOM AVE, BRISTOL, RI 02809

Executive Summary

Bristol Co-op Incorporated (Bristol Co-op), a worker-owned cooperative organized under Title 7, Chapter 6.2 of the Rhode Island General Laws, thanks you for considering this special use permit application for a cannabis retail storefront at 655 Metacom Ave, Bristol, RI 02809. Owned by Bristol residents, Bristol Co-op is a thoughtfully assembled team of experienced professionals who share a genuine commitment of community building and service, and a desire to provide patients and customers with access to quality products. The project is designed to improve the surrounding community and generate significant tax revenue. Our team is prepared to open and operate a truly best-in-class cannabis retail shop. As you will see in reviewing our proposal, our venture meets, and exceeds, all criteria specified in the Town's zoning code. To get an idea of the day-to-day functions of the business, this project description also includes a brief, non-exhaustive, overview of operations that are subject to RI Cannabis Control Commission regulation.

The issuance of a special use permit would enable Bristol Co-op to apply for a state cannabis license in the current open application process, closing December 29, 2025. State licenses are subject to a lottery, and therefore Bristol Co-op would only commence operations if selected in the lottery. Obtaining a special use permit from the Town of Bristol is a prerequisite to entering the lottery process.

Background

May 25, 2022

RI Cannabis Act becomes law.

The Rhode Island General Assembly passed, and Gov. Dan McKee signed, the Rhode Island Cannabis Act (codified at R.I. Gen. Laws §21-28.11). The statute created the Cannabis Control Commission (CCC) to regulate adult-use and medical cannabis.

November 2022

Local control via referendum ("opt-in/opt-out").

Section 21-28.11-15 (Municipal authority) of the Rhode Island Cannabis Act let most cities and towns put a standard question on the Nov. 8, 2022 ballot asking whether to allow new cannabis businesses in their jurisdiction.

November 8, 2022**Election results.**

Voters in the Town of Bristol approved the ballot referendum allowing the establishment of cannabis businesses in Bristol.

April 2025**Cannabis Control Commission regulations.**

The Rhode Island CCC approved the finalization of its inaugural regulations. The final regulations become effective May 1, 2025 and laid out administrative and enforcement procedures; the process for cannabis applications, licensing, and renewals; and operational requirements for cannabis businesses, among other topics.

Today - 2025**New retail licensing round opens.**

The CCC opened the application portal for 24 new adult-use retail licenses (evenly spread across six geographic zones) with submissions due by December 29, 2025. Bristol is included in Zone 6 (Barrington, Bristol, Jamestown, Little Compton, Middletown, New Shoreham, Portsmouth, Tiverton, Warren, East Providence, Newport, and Pawtucket). 1 worker-owned cooperative license, 1 social-equity license, and 2 general business licenses are available in each zone. The CCC will evaluate whether each submitted application meets statutory and regulatory requirements and those that do will be placed into a lottery. Any applicable zoning approvals/verifications, use permits, etc., from the host municipality must be obtained prior to submitting a state application.

Estimated 2026**License Selection.**

Applicants selected through the lottery must proceed to final licensing steps, which include inspections of the proposed premises to confirm compliance, issuance of the state license, and initial operational readiness. Licensees are subject to ongoing strict CCC regulation.

Project Description

Operational Expertise

Bristol Co-op is led by Bristol native and resident Nick Andre, who is Chief Operating Officer of the award-winning cannabis company Megan's Organic Market. With over 7 years of retail cannabis industry experience in multiple states, Nick has the expertise necessary to bring a world-class, approachable, wholesome, and compliant cannabis storefront to fruition. Prior to working in cannabis, Nick was founder and CEO of Kumani Inc, a California based IT company that specialized in e-commerce and cloud business systems implementation. Nick also worked for the Cal Poly Small Business Development Center where he advised and assisted small businesses with economic development and job creation. Further, his experience includes working in the accounting industry and for Hasbro, Inc. Nick holds a bachelor's degree in business administration with a concentration in accounting from the University of Rhode Island.

Everyday Nick works to implement Megan's Organic Market's mission of "making cannabis wholesome" through commitments to approachability, community, stewardship, and education. These commitments can be seen through the clean, retro inspired store designs, white button-down apron clad staff uniforms, ample community service projects, a track record of tax and regulatory compliance, achieving Green Business Certification and much more. This same company culture will be brought to Bristol Co-op.

Hours of Operation

Bristol Co-op's hours of operation for its upscale cannabis retail storefront would be a maximum of Monday-Sunday 8am-9pm. Vendor deliveries of inventory to the storefront will be limited to

Pictured Above: A Megan's Organic Market cannabis storefront.

operating hours. Bristol Co-op will be closed on Thanksgiving and Christmas Day. The business may potentially be open on other major holidays if it obtains a holiday sales license from the Town of Bristol per Chapter 17 Article 1 Sec. 17-10 of the Town Code.

Signage

Business identification signage will conform to the requirements of the Town of Bristol. Signage will be tasteful and not depict any image of cannabis plants (such as a leaf), images of cannabis products, or green crosses. A sign at the storefront entrance will clearly and legibly state that no person under the age of 21 years of age is permitted to enter the premises, unless such person is between the ages of 18 and 20 years of age and can produce a valid state-issued medical card.

Employee Requirements

Pursuant to R.I. Gen. Laws §§ 21-28.11-5(b) (8), 21-28.11-7, 21-28.11-9, 21-28.11-10.2, 21-28.11-11, 21-28.6-12(c)(6) and 21-28.6-16(b) all on site interest holders, key persons, managers, employees, agents, and volunteers of a licensed cannabis establishment shall apply for a commercial cannabis establishment identification card with the CCC. All persons applying for a commercial identification card shall be at least twenty-one (21) years old at the time of application. Commercial identification cards expire one year after issuance and must be renewed to continue working at the cannabis establishment. A national criminal background check is required by the CCC to obtain a commercial identification card for certain positions, including owners, managers, and other key persons. For any employee not subject to CCC background check requirements, Bristol Co-op will perform its own independent criminal background check.

Customer Volume

Bristol Co-op expects to serve an average of 100-200 customers per day. Fridays and Saturdays are expected to be on the higher end of the stated range, while Sunday-Thursday would be on the lower end. A customer spends an average of 10 minutes inside the store which allows for efficient turnover. Peak hours are typically between 3pm-6pm. The facility is adequately designed to handle such customer flow and has sufficient parking. Bristol Co-op owner Nick Andre has experience successfully handling high customer volumes at other cannabis retail stores that far exceed what Bristol Co-op expects to serve.

Product Types Sold

Bristol Co-op's product offerings are strictly regulated by the RI Cannabis Control Commission (CCC). Bristol Co-op may only purchase or otherwise receive cannabis or cannabis products from a Rhode Island licensed cannabis cultivator or licensed cannabis product manufacturer with which it has a formal agreement. The products

received must comply with a pre-approved retail-ready designation list published by the CCC, and meet all regulatory requirements, to be sold in the store. Current CCC regulations dictate seed-to-sale tracking, independent lab testing, packaging and labeling requirements (child-resistant, not attractive to children, tamper evident, warning messages, etc.), dosage limitations, and that the products are determined to be generally safe for their intended use. No products can originate from outside state lines.

Bristol Co-op's offering will have a heavy focus toward the needs of medical patients, by including products designated for "Medical Use Only" by the CCC, such as transdermal topicals, tinctures, and capsules. In addition to retail medical cannabis products, Bristol Co-op will also provide retail adult-use cannabis products to consumers (may include flower, vapes, drinks, edibles, concentrates, or other CCC approved products). Many adult-use cannabis consumers are medical users who choose not to get their medical cannabis card. Other adult-use consumers use cannabis as part of a workout routine, sleep routine, or social activity. MOM will carry products for all of these different consumer needs.

MOM will also provide education to first-time customers on proper dosing, driving under the influence, cannabis use disorder, keeping cannabis away from kids and pets, cannabis and pregnancy, etc. Products will not be visible through windows or by any other means from outside of the storefront. All of MOM's advertising will be targeted to adult audience over 21 years old.

One-on-One Services

Bristol Co-op will offer one-on-one patient/customer consultations to assist in determining

which products are appropriate for a given individual's needs, this can be especially helpful for seniors and first-time customers. For those wanting a group setting, Bristol Co-op plans to also offer in-store educational tours and workshops. Workshops will cover basic cannabis knowledge including safe-use, dosing, modes of ingestion, possible risks, resources for more knowledge, etc. Bristol Co-op will also offer resources and referrals for patients/clients with addiction issues.

Sale Limits

Sales to an adult-use consumer are limited to one (1) ounce of cannabis flower or its equivalent per day pursuant to R.I. Gen. Laws § 21-28.11-22. Sales to a qualifying medical patient directly or through a qualifying patient's primary caregiver or authorized purchaser may not exceed more than two and one-half ounces (2.5 oz.) of usable marijuana, or its equivalent, during a fifteen-day (15) period per R.I. Gen. Laws § 21-28.6-12(g).

Preventing Unauthorized Access

Bristol Co-op has strict policies and procedures that prevent the unauthorized access of cannabis products. A summary of key policies are:

- A secure lobby where ID is verified before customers are granted access to the sales floor through a locked electronically accessed controlled door.
- Adequate staff on the sales floor to assist and supervise customers.
- An advanced security camera system used for loss prevention monitoring.
- Electronic access control doors throughout.
- Strict vendor delivery procedures with an enclosed delivery bay.
- Storage of cannabis products in a secure

storage room/vault room.

- A policy to permanently ban any customer caught illegally selling cannabis products or diverting product to minors.
- Strict destruction and waste procedures.
- Strict visitor protocols that require signing in to a visitor's log for access to designated Limited Access Areas, which require all individuals granted access be at least 21 years of age, and if not employed by the retailer, shall be escorted at all times by a Bristol Co-op employee.

Customer Check-in Procedures

- Arriving at Bristol Co-op customers will enter the well-lit parking lot and proceed to the single customer entry easily visible to arriving customers.
- The storefront entry will lead into a secure and well-appointed lobby.
- There they will be greeted by a friendly receptionist, who will ask the customer to present a valid government issued identification card. The receptionist will

then verify the ID (and their medical identification card, if applicable). An individual will not be admitted to the premises unless a receptionist has verified the individual's proof of identification. Individuals who are not at least 21 years of age (or 18 years of age for those registered in their state's medical marijuana program) will be politely asked to leave. Refusal to leave will be considered trespassing and local law enforcement will be notified. If it is discovered that the individual's identification or medical card, is invalid, expired, or fraudulent, the individual will be asked to leave the premises, and any fraudulent identifications will be confiscated and reported to the CCC and local law enforcement.

- Once an individual is verified as having the appropriate identification, the receptionist will enter the eligible customer's information into the Point-of-Sale system. This includes but is not limited to full name, address, date of

Pictured Above: Megan's Organic Market awards. Best Dispensary Winner 2021, 2022, 2023, 2024 & 2025 and Best New Business 2021.

birth, ID number, and ID expiration date.

- The receptionist will then allow the customer to proceed inside the store by “buzzing” them in through the remotely controlled secure door, unless maximum occupancy has been reached. Receptionists can see into the retail floor through glass windows and communicate with retail floor employees via two-way radio to ensure occupancy limits are properly adhered to. When capacity is reached, customers will wait in the lobby. The next customer will enter as one exits the store. This will create a smooth flow during any high traffic times.
- Once in the retail space, a staff member will greet the customer with a smile and a warm introduction before escorting the customer onto the retail floor. Under no circumstance will a customer be allowed to enter the retail space without the presence of employees.

Customer Experience Post Check-In

- The customer will then engage in the shopping and education experience and select items they wish to purchase with the assistance of a customer service representative. Various visual displays on the retail floor will include educational information, as well as product details, and may include empty product packaging for the customers to read and learn about products. All Bristol Co-op staff are continually trained to be as knowledgeable as possible about our products and are able to assist customers with recommendations.
- Once the customer has completed their review of the retail store displays, they will proceed to one of the register stations where they will place their order with a customer service representative.

Another ID verification will take place and the items being purchased by the customer are tracked in the point-of-sale system in a customer account that tracks daily purchasing limits in accordance with state law.

- The customer service representative will obtain the products for the customer, located in a limited access area, and then review how to use the selected products as well as provide educational pamphlets that cover everything from dosing to modes of ingestion.
- Customers will then make payment at the time of sale and will be given a receipt. All items will be placed in an opaque exit bag in accordance with 560-RICR-10-10-2.6E and then given to the customer. The point-of-sale system integrates with the state track-and-trace system, METRC, through an API for automatic data transfer to report sales and other required information.
- The customer will then exit the premises through the designated exit. No loitering or consumption of any cannabis products on the premises (including the parking lot) is allowed. Staff are trained to watch for such activity.

Receiving Vendor Deliveries

After the business conducts the proper pre-purchase due diligence, enters into a purchase agreement, and schedules a vendor delivery during business hours, the vendor arrives on site and checks-in with Bristol Co-op personnel. Paperwork must be verified before being allowed to proceed to the rear of the building and into the fenced, limited access secure delivery bay. Unscheduled and unapproved deliveries will not be accepted. The delivery bay is secured by fencing and products are not allowed to be unloaded until the gate is closed

Pictured Above: Clip of Floor Plans - Delivery Bay (Yellow), Inventory Intake Room (Green)

and locked. A door from the delivery bay leads directly into the limited access inventory intake room. Vendors are authorized individuals and will be allowed to enter the limited access area only if they are signed in on the visitor log and then escorted by a Bristol Co-op employee at all times. The floor plan above shows the location of the delivery bay highlighted in yellow and the location of the intake room highlighted in green.

Bristol Co-op will receive goods under video surveillance and must be inspected for compliance and quality. Bristol Co-op has a detailed SOP and set of checklists for processing the receipt of cannabis inventory that include but are not limited to:

- Verifying the METRC manifest matches the count of items and METRC UIDs received.
- Verifying Certificates of Analysis match the batch numbers on the product labels.
- Verifying packaging and labeling are compliant.
- Accepting manifest in METRC and ensuring driver and Bristol Co-op employee sign

paper copies that are retained and electronically filed with the invoice.

- Importing inventory from METRC into Point of Sale and securing product in the secure storage room.

Bristol Co-op pays all vendors by check or ACH to increase security. Vendors are allowed to leave the delivery bay only after products have been moved into the Restricted Access Inventory Intake Room.

Cash Handling

Contrary to popular belief, cannabis retail is not a cash-only business. On average, more than half of transactions occur with digital or debit card based payment methods, and banking is available through many credit unions.

The maximum amount of starting cash in the retail registers is typically under \$1,000, with safes utilized for change and register deposits. Automated alerts occur when a register exceeds a set threshold of cash, requiring a "cash drop"/deposit into a drop safe. Cash is

always reconciled with two staff members present and deposited to the bank at least weekly through a licensed cash transportation service setup by the credit union. All business expenses are paid via ACH, debit card, or other non-cash methods for added security.

Security

Bristol Co-op has extensive security plans developed in coordination with a professional security consultant. These plans are regulated by the RI Cannabis Control Commission and include detailed diagrams typically not subject to public record. A brief, non-exhaustive, overview of the plan's components is listed below:

- Adequate lighting throughout (both perimeter and indoor).
- Requirements that staff have a valid commercial identification card issued by the CCC.
- Background check requirements for all staff.
- A visitor's log with a requirement that visitor's must be escorted at all times by a commercial card holder.
- Cannabis and cannabis products stored in a secure, locked storage room. This room has enhanced physical security features in the walls, ceiling, and doors to prevent intrusion.
- Working commercial-grade, non-residential door locks at all points of ingress and egress.
- A fully operational security alarm system of an appropriate commercial standard as deemed acceptable by the CCC. This will include, at minimum, glass break detectors, door and window sensors, motion sensors, and battery backup. The system will include automatic or electronic notification to alert municipal and/or state law enforcement agencies, and will be remotely monitored. Regular testing and maintenance of the alarm system will occur at least every 30 days.
- Silent "panic buttons" under registers and the reception desk that trigger emergency response.
- A state-of-the-art 24 hours a day, 7 days per week, video surveillance system throughout the facility, that meets and exceeds CCC requirements. This includes, but is not limited to, a continuous real-time live feed available to the CCC (which can also be given to Bristol PD), physical and cloud backup storage of historical footage (minimum 60 days), backup system, facial recognition, vehicle recognition, AI analytics, night vision, tamper alerts, and more.
- A designated security room with access limited to licensed cannabis establishment personnel specifically authorized by management.
- Procedures to temporarily close in the event of security alarm or camera system failure in accordance with CCC regulations.
- An emergency plan with procedures to be followed to prevent and to adequately address and mitigate consequences of theft or burglary or attempts thereof; fire, natural disasters, and other emergencies, including cybersecurity and data breach procedures to prevent a compromise of the integrity of cannabis seed-to-sale tracking system. The emergency plan will also include training for employees on crime prevention and personal safety techniques. The plan includes immediate reporting of emergency events to the CCC and law enforcement.
- On-site and digital backups of at least the last 24 months of records as required by

CCC regulation.

- Electronic access control system for doors.
- Lobby with controlled locked door leading to retail floor.
- Interior retractable, folding or sliding metal gates, or metal rollup or accordion doors that are compliant with applicable fire codes for emergency egress.
- Smash resistant window film.
- Establishment of limited access areas, such as any work areas or secured storage areas, only accessible to authorized personnel.
- Customer database management that can permanently ban customers if issues arise.

Safety

Bristol Co-op will meet or exceed all fire and life safety codes, and ensure the CCC, PD and Fire Department are in full coordination during the building permit phase, and facility build out, if selected in the license lottery. The facility will include fire extinguishers, a knox box, a fire alarm system, and first aid kits. Staff are trained on evacuation plans, medical emergency plans, and other safety plans, as well as accident reporting.

Being a Proactive Neighbor

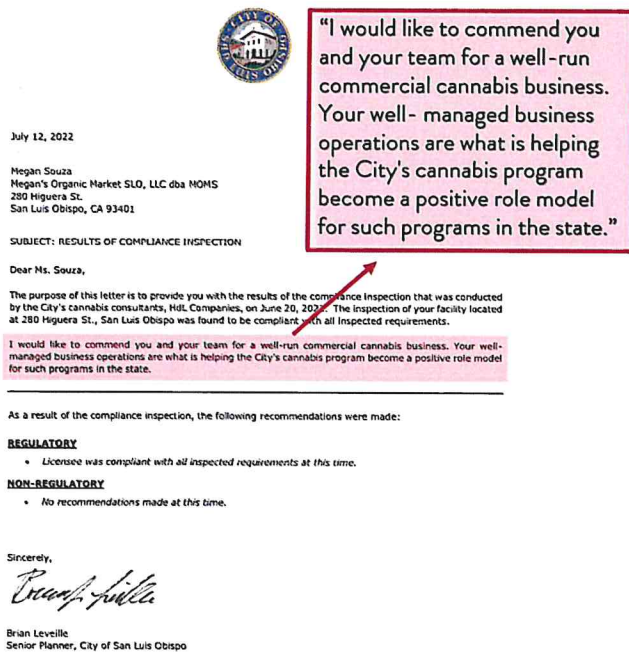

As a leader in the evolving cannabis space, Bristol Co-op has a duty to build a foundation for successful integration of its industry into mainstream culture, and this begins with establishing positive long-term relations with our immediate neighbors and greater community. To ensure our neighbors and community members have an avenue to voice their concerns and questions, Bristol Co-op will appoint a staff member as the Community Relations Manager.

The Community Relations Manager's job is to address and respond to questions and concerns as they arise from community members or Town personnel, especially related to noise, light, odor, litter, vehicles, and pedestrian traffic. Their contact information, which will include name, email address, direct phone number and mailing address, will be displayed on the exterior the retail facility immediately adjacent to the front entrance. They will work to forge lasting relationships with local residents and business owners and will address any community complaints received. All complaints received will be logged and brought to Management's attention and addressed within 24 hours of initial receipt.

Complaints can be submitted to the Community Relations Manager via phone, text, email, standard mail, or using the online complaint form located on the company's website. Complaints can be submitted anonymously, however, contact information is requested in order to ensure the Community Relations Manager can follow up with the individual lodging the complaint and verify resolution. Complaints are logged into a central database and the General Manager receives notice in addition to the Community Relations Manager. An action plan is required to be developed within 24 hours for any issue not immediately resolved.

Hosting Bristol Police and Fire

Bristol Co-op cultivates positive and productive relationships with local law enforcement and safety professionals. Bristol Co-op will invite the Bristol Police Department and Fire Department to fully hosted training and education events at our storefront to discuss topics like diversion prevention, cannabis compliance regulations, black market enforcement and more.

Pictured Above: A compliance letter from another jurisdiction.

Constant Presence in the Community

Through initiatives such as our employer sponsored community service hours, community donations, and other efforts, Bristol Co-op will have a constant presence in the community. When our staff is side-by-side with town residents performing work that improves the community, lifelong relationships are developed. Bristol Co-op also has a policy that Management also personally participates in community volunteer service. Our dedication to the community and our neighborhoods go all the way to the top.

Daily Inspections, Maintenance, Cleaning, and Appearance Standards

Bristol Co-op strives for the highest standards of appearance and will improve the immediate area and neighborhood. Daily before opening, the designated opening employee will inspect the exterior of the building for litter, appearance, and maintenance concerns. The

opening employee will remove trash from the parking lot, landscaped areas, and sidewalks around the building daily. The opening employee will use an electric blower to remove dust and sediment from the parking lot area and surrounding sidewalks on a weekly basis. The opening employee will report to management any maintenance or landscaping concerns including but not limited to broken irrigation, exterior damage, vandalism, dead landscaping, diseased landscaping, weeds, broken lighting, security concerns, and loitering. Employees are encouraged to check the parking lot and exterior for as needed cleaning and maintenance throughout the day. The designated closing employee will check the parking lot for as needed cleaning towards the end of their shift.

Preventing & Monitoring for Problems

Bristol Co-op's facility is designed in a manner to prevent and deter crime, loitering, noise, light, odor, and traffic issues. During operating hours our staff will act as a visual deterrent and will address any issues that may arise on the property. This includes preventing and stopping on-site consumption in the parking lot and sidewalks. Our facilities are also equipped with next generation cloud-hybrid security cameras that include facial, license plate, and vehicle recognition that can integrate with access control and alarm systems. This system is accessible by the police department, and in other jurisdictions, has been successful in helping solve crimes that have not even occurred on the licensed premise, due to their high resolution and advanced technology. The system is monitored remotely after-hours and staff can be dispatched, or law enforcement contacted, if any issues are detected. The security aspects of the facility make the entire neighborhood safer.

Noise

Bristol Co-op implements several measures to prevent noise including a policy that no amplified sound is to be heard from the outside of the facility. Ambient music is played only inside the building, and at a lower sound level in the lobby. Windows to the facility do not open to prevent noise and odor from escaping. Additionally, staff are trained to take immediate action if any patron causes an audible disturbance such as loud music playing from a vehicle. Any customer who does not cooperate with our noise policy is immediately and permanently banned in our point-of-sale system and will not be allowed to visit to the facility. Bristol Co-op also takes steps to prevent customer lines from forming outside the facility. It is unlikely that the maximum occupancy will be reached at any one moment, except during special events or holidays. Thus, this reduces the occurrence of line formation. The project also includes a lobby where customers can wait inside the building whenever the retail floor reaches maximum occupancy.

Light

Bristol Co-op proposes the use of “dark sky compliant” lighting for the project, ensuring the reduction of light pollution in the neighborhood. Bristol Co-op facilities do not emanate an unreasonable amount of light during operating hours or when closed. During after-hours, only the lights required for security purposes remain illuminated. Lighting on signage is minimal and tasteful. MOM’s security camera system has infrared night vision built in and is not effected by low-light conditions. Staff also inspects exterior lighting nightly to ensure bulbs are not flickering or malfunctioning in any way.

Odor

Relative to cannabis cultivation and cannabis manufacturing, cannabis retail operations

produce a little to no odor. Products arrive prepackaged and there is no consumption allowed. Nonetheless, to prevent minor odors that can result from damaged cannabis products/waste, the facility HVAC system will be outfit with carbon filters. All management level staff will be trained on how to use and troubleshoot the HVAC odor filter system as part of standard training protocols. Regular maintenance and filter changes will be scheduled in advance with a professional service in accordance with manufacturer guidelines. Inspections will occur bi-annually by a licensed professional to ensure the system is functioning properly. Additionally, windows to the facility do not open and the lobby vestibule provides an additional layer of protection. There will be no detectable odor on the exterior of the facility.

Waste

Bristol Co-op will contract with a local waste hauler for regular pickup of both standard waste/recycle and cannabis waste. The standard waste bins are hidden from public view and will be upkept and cleaned to prevent odors. Standard waste is generally cardboard boxes from vendor deliveries that will be recycled, and miscellaneous waste generated from the employee breakroom. Cannabis waste is generally damaged or expired cannabis products that cannot be sold. Cannabis will be properly disposed of, pursuant to 560-RICR-10-10-2.25. The secured cannabis waste receptacle will be sealed, locked, and secured in the limited access storage room and physical access to the receptacle is restricted to authorized Bristol Co-op employees and our contracted waste hauler (subject to CCC approval). Public access to the secure receptacle is prohibited. Bristol Co-op will not sell cannabis waste. MOM will comply with all applicable waste management laws.

3% Tax to Town

Per RI General Laws § 21-28.11-13 a local cannabis excise tax equal to three percent (3%) is imposed on each retail sale. This goes to the Town of Bristol, and could generate \$75,000-\$100,00 per year. This is in addition to regular sales tax and a state excise tax of ten percent (10%).

Community Service Employee Sponsored Hours

Bristol Co-op will also commit to providing company-sponsored employee community service hours. Service hours will be used to support local nonprofits and efforts that directly benefit the residents of Bristol such as road cleanups, neighborhood beautification efforts, food pantry services, and more.

Community Involvement

In addition to volunteer service, participation in the local nonprofit community and professional organizations is a key part of Bristol Co-op's community involvement plan. Bristol Co-op will be an active participant in organizations such as the East Bay Chamber of Commerce. Bristol Co-op owner Nick Andre has a long track record of community involvement through other cannabis businesses, including community cleanups, food drives, addiction prevention programs, sponsorship of veteran's events, public art, regularly preparing and serving a monthly dinners at homeless shelters, and more.

Pictured Left: The Megan's Organic Market (MOM) team rolled up their sleeves to clean their sponsored stretch of roadway as part of the Adopt-A-Highway program. Middle: The MOM team performing a creek cleanup. Right: The MOM team sponsoring a charity golf tournament.

Property Owner Authorization for Special Use Permit Application – 655 Metacom Ave

Dear Town of Bristol and Members of the Zoning Board,

I, Zachary Rivers, being the duly authorized representative of REC Properties LLC, the owner of the real property located at:

655 Metacom Avenue
Bristol, Rhode Island 02809
Parcel ID: 094-0007-000

hereby authorize Bristol Co-op Incorporated to apply for a Special Use Permit with the Town of Bristol to operate a licensed cannabis retailer establishment at the above-referenced property.

This authorization includes the right of Bristol Co-op Incorporated, and its representatives, including Nicholas Andre, to file all necessary applications, forms, and supporting materials in connection with the Special Use Permit request before the Town of Bristol's Zoning Board of Review or any other municipal department or agency as required.

REC Properties LLC acknowledges that it has reviewed and consents to Bristol Co-op Incorporated's proposed use of the premises for this purpose and supports its application in accordance with all applicable federal, state, and local laws, including the Rhode Island Cannabis Act and the Town of Bristol Zoning Ordinance.

Sincerely,

Zachary Rivers
Authorized Representative
