Bristol Harbor Master

TO: Steven Contente
Town Administrator

FROM: 
Gregg Marsili
Bristol Harbor Master

CC: Town Council

DATE: May 2nd 2022

SUBJECT: CRMC PUBLIC NOTICE 2022-04-046, ROGER WILLIAMS UNIVERSITY,
BRISTOL RI

Roger Williams University wants to construct and maintain a two acre education/research aquaculture site adjacent to the Universities Learning Platform in Mount Hope Bay. I approve the construction of this aquaculture with the following conditions; the aquaculture is constructed to the North/East side of the Learning Platform, this way there is a structure delineating the aquaculture and the Universities Sailing Team on the South/West Side of the dock. All buoys which are marking the aquaculture need to be approved by the United States Coast Guard and registered in the Private Aton System (PATON). In addition the university cannot sell their product they are growing because it may have an effect on the price of shellfish for our Commercial Fisherman.

If you have any questions or need more clarification please let me know.
