NOTICE OF PUBLIC HEARING

PERSUANT TO THE BRISTOL ZONING ORDINANCE

Notice is hereby given by the Zoning Board of Review
that a Public Hearing will be held in-person at:

Bristol Town Hall

10 Court Street, Bristol, RI 02809

December 1, 2025 at 7:00 pm

In regards to the petition of:

Applicant: Joseph M Pardini

Owner of Record: Joseph M. Pardini

Location: 3 SLOCUM ST , BRISTOL, RI, 02809

Plat: 121 Lot: 161 & 182

Zoning District: R-10

Applicant is requesting **Special Use Permit** to:

construct a 32ft. x 44ft. three-story single-family dwelling with a height greater than 25 feet above grade within the flood zone.

A handwritten signature in black ink, appearing to read "Ed M. Tanner".

Edward M. Tanner

Principal Planner / Zoning Enforcement Officer

Scanned copies of all applications and supporting materials will be available on the Town of Bristol website at <https://bristol-ri.municodemeetings.com/>. If you have any comments regarding this petition, but are unable to attend, you may submit your comments in writing to the Zoning Board via regular mail addressed to: Zoning Board of Review, Bristol Town Hall, 10 Court Street, Bristol, RI 02809 or via email to etanner@bristolri.gov.

Application for special use permit

Property Address: Plat 121, Lots 161 & 182, 3 Slocum Street, Bristol, RI

The proposed new structure is a modern three-bedroom elevated residential dwelling with two levels of exterior decks/balconies in compliance with flood zone elevated construction.

The area beneath the elevated first habitable floor is designed as a non-habitable enclosure and incorporates flood-resistant materials and compliant flood vents to allow for the automatic entry and exit of floodwaters, meeting NFIP standards. All mechanical, electrical, and plumbing components and systems will be installed above the BFE on the ground level.

The existing shed and wood patio are to be removed.

The relief requested is to allow construction of a single-family dwelling in a flood zone and for any related special use permit necessary for this property in a R-10 zone with a maximum building height of 32 feet.

A. Description of Property

The subject property is a vacant residential lot of record located within the R-10 zone, having a lot area of approximately 16,960 square feet and a frontage of 80 feet. Lots 161 and 162 were acquired by the applicant in April of 2022.

B. Proposed Project

The applicant proposes to construct a single-family home consisting of two living stories plus architectural roof features. Due to the lot's narrow width and the need to maintain adequate interior ceiling height and flood-compliant elevations (if applicable), the proposed building height measures 32 feet, 2 feet above the 25 - 30-foot limit applicable to this district.

C. Justification for Relief

1. Hardship Due to Property Characteristics

The hardship arises from the narrow width and confining shape of the lot, which limit reasonable design alternatives. Compliance with the 25 - 30-foot restriction would require unreasonably low ceiling heights, impairing functionality and value. This hardship is not the result of any prior action by the applicant.

2. Consistency with Comprehensive Plan and Neighborhood Character

The proposed dwelling will be compatible in scale and appearance. The design preserves existing view corridors and minimizes shadowing.

3. Minimal Relief and Public Interest

The requested 7-foot increase represents the minimum necessary variance to allow a structurally sound and proportionate design. Granting the special use variance will not alter the general character of the area, impair property values, or contravene the intent of the Bristol Zoning Ordinance.

Compliance with the 'More than a Mere Inconvenience' Standard

Without the height variance, the applicant cannot reasonably construct a single-family residence consistent with modern building codes and neighborhood design standards.

Denial would result in more than a mere inconvenience.

D. Special Use Permit Criteria

If the Board determines that construction on a substandard lot constitutes a special use, the applicant further demonstrates that:

- The project will not exceed the maximum number of floors or lot coverage limitations established by the zoning district.
- Building height is calculated from the average grade per ordinance and excludes unoccupied decorative features.
- The structure is designed to maintain the visual rhythm and scale typical of Bristol's waterfront and residential architecture, minimizing impacts on vistas and sunlight for neighboring properties.
- The site plan provides the minimum required landscape buffer, signage location, and other supplementary standards.
- The proposed design complies with RI CRMC standards for construction within coastal zones, including elevation requirements for flood resilience and preservation of contiguous natural features.
- The project does not encroach within required coastal buffers or setback areas as measured from the highest annual tide or designated shoreline feature. The height increase enables flood resilience and architectural compatibility without adverse impact to neighboring properties or the public view.
- The design proposes landscaping and architectural details to soften the visual scale from public ways and the shoreline.
- Any lighting, signage, or accessory features comply with local and CRMC requirements.

E. Relief Requested

That the Bristol Zoning Board of Review grant a dimensional variance to allow a maximum building height of 32 feet where 25 - 30 feet is permitted, and any associated special use permit necessary to authorize construction of a single-family dwelling on the described lot of record.

F. Supporting Materials

- Certified plot plan with building elevations.
- Architectural drawings showing side and front elevations with height dimensions.
- Copy of deed confirming lot status as of record prior to zoning enactment.
