Hi Nick!
We live at 37 Burton Street and are the immediate abutters of 35 Burton Street. We support our neighbors' request to replace the existing shed with extra living space and ask that the stop-work order be lifted so the project can proceed.We were not the party who complained.
The shed wall already sits on our rear yard. When their contractor needed to set up their workstation in our yard, we gave them permission to do so. We have a dog and the crew was careful so he could not get into the work area. We were told scaffolding would be up from July through October and understood it would take months to build the new building.
This work has not harmed our use or enjoyment of our property. We have no objection and ask the Board to let the project proceed.

Sincerely,
Kelly Broughal and Tim Meandro
37 Burton Street
