Sweeney/ Teixeira- Voted unanimously to continue the matter to the January 17, 2024, council meeting.

Prior to the vote taken, Chairman Calouro expressed reservations about the request for the dancing and entertainment license and indicated a lack of support for granting it in this area.

Mr. McNeil explained that the license would be to host a series of events at the golf course that would contain acoustic music.

It was suggested that a one-day or special event permit be requested instead of granted a full blank license.

Discussions ensued concerning the possibility of allowing a restricted dancing and entertainment license for seasonal use, with the condition of permitting only acoustic music.

Mr. McNeil explained that he had established a designated area behind the building, denoted as a beer garden, specifically intended for post-golf activities. The space, measuring approximately 25 by 25 feet, is not overly large and is primarily meant for our players, with an expected capacity of around 40 to 50 people for events. Through our partnership with a brewery, he planned to utilize it as a resource for events, ensuring flexibility between indoor and outdoor spaces to create a seamless experience. Vice Chairwoman Parella inquired about the connection between the Career and Technical Education (CTE) programs at Kickemuit Middle School and the Mt. Hope High School's offerings. She suggested that the goal might be to provide students with an opportunity to continue their CTE learning after school. Planner Toth clarified that the intention is not to replace existing programs but to offer an additional option for students.

Vice Chairwoman Parella sought confirmation that the after-school program is open to all students, including those from private or parochial high schools. She then inquired whether the program would provide extra support or cover different topics compared to the high school's offerings. Planner Toth expressed the belief that the aim is to broaden students' horizons

Councilman Ley inquired about the duration of the program, asking if it would extend beyond one year. Planner Toth responded, expressing a strong desire for continued funding beyond the initial year. He acknowledged the dependence on state funding and the uncertainty regarding future program years. Planner Toth emphasized the intention to keep the program free for all students but also mentioned exploring alternative funding sources over time to ensure sustainability beyond the initial year.

Councilman Ley draws parallels between the current program and the 2016 initiative, specifically referencing Governor Raimondo's Real Jobs Rhode Island program. He highlights the earlier marine trades and composites partnership in Bristol, led by Wendy Mackey, and the marine trades industry. Noting that the program aimed to expose high school students to careers in the blue economy. Councilman Ley suggests that lessons from the challenges faced by the previous initiative, including a major study, could provide valuable insights for the current program

Councilman Ley inquires about the recruitment progress for the program and the current number of students involved in the skateboard program acknowledging the importance of outreach and

recruitment efforts. Planner Toth responds that there are currently 10 participants.

Councilman Ley expressed hope that the program will gain momentum and attract more participants over time. He highlights the need to showcase success stories and breakthroughs to demonstrate the program's impact, particularly if it aims to become an annual initiative.
