

Attending: J. Dollins, J. MacDonald, D. Miller, Commissioners

Advisory: W. Gablinske, O. O'Rourke G. Marsili, Harbormaster

1. Approval of February Minutes: Passed
 2. Report of the Harbormaster- Gregg Marsili
 - A. New Marina Status: Expects arrival of material, particularly cable, in the next week or so.
 - B. State St. and Independence Park Ramps are in permitting; should have ramp plans next meeting.
 - C. Dock Repairs: To commence/continue soon with improving weather.
 - D. Sign for Maritime Center: Moving ahead, anticipate spring installation.
 - E. Marina Wait List: 165; Wait list renewal deadline is March 15.
 - F. Gibson Rd Ramp Replacement: Nothing new, likely as Fall Projects and as part of Capital Budget after July 1.
 - G. ROW Projects: Same as F above, looking like Fall Projects also.
 - H. Fales Rd ROW: One hole filled, another has popped up.
 - I. 5 MPH Sign: Nothing new except that floating dock sections and day-marker solutions not practical or CG sanctioned.
 3. Breakwater Study Committee: No Report, Steve not in attendance.
 4. Elks Club Letters: Gregg has approached Pare on subject of refraction upon nearby Elks docks, and Pare has indicated that since we had not asked about it, they did not accommodate consideration of it in their plans. The Elks will now be asked to approach the Town Council with the issues. Gregg has indicated that he would not likely be in favor of the request from the Elks for 8 slips.
 5. Prudence Island Ferry Dock Parking: Expected to get worse before it gets better. Further reduction of parking space with Russ' closing of lots for factory condo project.
 6. State St. Ramp: Powering on: Is something many boaters do; solution in part will be the lengthening of the ramp.
 7. Public Input: No appeals sought at present; will meet 3/13 if needed.
