Prior to the vote, applicant Chris Kerr of 19 Norbert Street, Warren, RI, addressed the Council. He stated that they have recently acquired the assets of the former brewery, Six Pack Brewing, in Bristol, RI, and have taken over its lease at 87 Gooding Avenue. The new brewery, named Trigmar Ale Works, is inspired by Celtic mythology, with "Trigmar" referencing a mythological figure known as the thrower of axes.

Mr. Kerr introduced his partner, Mike Odette, the brewer and owner of the facility. He explained that the business will continue in a similar manner to its predecessor, brewing and selling beer, seltzers, and cider. Additionally, they are seeking an entertainment license to host live music, primarily acoustic performances, given the venue's small, 40-seat capacity.

Mr. Kerr stated that their goal is to open by March 14th, in time for St. Patrick's Day, given the brewery's Irish theme, and they hope to hold their grand opening that weekend. He noted that they are working diligently to finalize preparations. He outlined their standard operating hours: closed on Mondays and Tuesdays, open Wednesday and Thursday from 4 PM to 8 PM, Friday and Saturday from 12 PM to 9 PM, and Sunday from 12 PM to 5 PM. ## **H. Old Business**

## **I. Other New Business Requiring Town Council Action**

- 11.** Fire Chief DeMello request authorization to order a New Rescue 1 for the Fire Department

Teixeira/Parella - Voted unanimously to authorize the order of a new rescue one truck for the fire department

Prior to the vote being taken, Fire Chief DeMello requested authorization to order a replacement vehicle for Rescue 1, which currently has approximately 234,000 miles. He explained that the lead time for delivery is about two and a half years, meaning the vehicle would not arrive until Fall 2027. As a result, actual funding would not be needed until after July 1, 2027.

Fire Chief DeMello highlighted the importance of locking in pricing now, as costs continue to rise. The request is for \$550,000, compared to the last purchased vehicle at \$460,000, reflecting substantial cost increases. Additionally, potential 2027 diesel emission regulations could further increase costs, particularly for fire engines.

The Chief noted that since the addition of a fourth rescue truck, overall usage has increased by approximately 25%. This extended the lifespan of each vehicle, with Rescue 1 expected to remain in service for about 12 to 13 years instead of the usual 8 to 9 years. This strategy aims to maximize value and ensure the best use of emergency vehicles before they are retired from service.

The council expressed support for the request, emphasizing the importance of ensuring the town has the necessary resources to properly serve residents. They stated that the expense is appropriate and fully supported the authorization to proceed with ordering the replacement vehicle.

Councilman Sweeney inquired whether there would be time to pursue potential grant funding. Fire Chief DeMello responded that while they have explored options, available funding sources, such as FEMA and state or federal grants, have become scarce or highly competitive. He noted that the department has done well in keeping ahead of equipment needs, but this can sometimes make it more difficult to qualify for grant opportunities, as funding often prioritizes municipalities in greater need.

Council Ley asked whether a deposit is required when ordering the vehicle and if the payment would be spread over two fiscal years or completed within one. Fire Chief DeMello explained that it could be handled either way,

depending on the town's financial strategy. One option is to appropriate the full amount during the July 2027 budget cycle. However, as outlined in his memo, the plan is to pay for the chassis upfront—potentially as early as Spring 2026—depending on industry timelines.

Fire Chief DeMello noted that this approach would help avoid additional costs. If the chassis remains on the manufacturer's lot, the company would incur inventory taxes, which would ultimately be passed on to the town. By prepaying approximately \$125,000 for the chassis, the town can avoid these extra charges. He confirmed that he would coordinate with the treasurer to determine the best financial approach.

- I2.** Chairman Calouro request the use of Contingency Funds to purchase plaques

Teixeira/Parella - Voted unanimously to appropriate \$150 from the Town Council Contingency to purchase plaques.

Prior to the vote being taken, Chairman Calouro requested Council consideration for an expenditure of no more than \$150 to purchase two plaques in recognition of two board members who have each served for over 22 years.

- I3.** Bristol Firemen's Memorial and Welfare Committee request for support of 70th Annual Fundraiser and Program Book

Teixeira/Sweeney- Voted unanimously to appropriate \$100 from the Town Council Contingency account in support of this program ads sponsored by the Town Council, Town Administrator, and Town Clerk.

- I4.** Richard Rainer, Jr., Town Administrator of Portsmouth - re Creating an Interlocal Cooperation Commission on Prudence Island Ferry Parking

Sweeney/Parella- Voted unanimously to support the formation of the Interlocal Cooperation Commission on Prudence Island

Ferry Parking to include the Town  
Administrator, The Council Chairman, Harbor  
Master, and Community Development Director

Prior to the vote being taken, Richard Rainer, Town Administrator of Portsmouth, RI, addressed the Council on behalf of Portsmouth Town Council President Keith Hamilton. He referenced a letter sent to Bristol regarding a request from Prudence Island resident Robin Weber to establish an Interlocal Cooperation Commission to explore potential solutions for Prudence Island Ferry parking.

Mr. Rainer noted that Portsmouth Town Council reviewed the request and agreed to create a structured forum for dialogue between the communities. Rainer emphasized that Portsmouth's intention is not to dictate policy to Bristol but rather to facilitate discussions that could lead to mutually beneficial solutions.

Mr. Rainer acknowledged that ferry access is a vital service for Prudence Island residents while also recognizing the increasing concerns about parking near the ferry landing. Given the complexity of the issue, which involves municipal regulations, private property considerations, and broader community interests, Portsmouth believes an interlocal approach could be valuable.

Mr. Rainer explained that the proposed commission would bring together key stakeholders, including representatives from Bristol, Portsmouth, the ferry operators, and other relevant parties, to collaboratively discuss potential solutions. Portsmouth is prepared to participate in the commission and formally invited Bristol to join the effort, approaching the discussion with an open mind and a commitment to constructive dialogue.

Councilman Sweeney expressed appreciation for the President's time and stated his support for establishing the commission to address the parking issue. He inquired about the current composition of Portsmouth's commission.

Mr. Rainer responded that Portsmouth's commission includes the Town Administrator, Town Planner, DPW Director, Chief of Police, and an invitation extended to the Council President.

Chairman Calouro suggested including the Harbor Master in Bristol's commission. Town Administrator Steven Contente recommended adding the Harbor Master and the Community Development Officer and omitting the Police Chief and DPW Director. Chairman Calouro agreed that the proposed composition seemed appropriate.

It was clarified that Bristol's Interlocal Cooperation Commission would include the Town Administrator, Council Chairman, Harbor Master, and Community Development Director.

Vice Chairwoman Parella asked Mr. Rainer if representatives from Prudence Island residents would be included in the commission. Mr. Rainer confirmed that the initiative originated from a working group on Prudence Island, which requested the town's involvement. He referred to the group as a "parking working group" and stated they, along with ferry operators, would be invited to participate.

Vice Chairwoman Parella clarified that the group would discuss options, brainstorm solutions, and present recommendations to the Council.

Councilman Ley suggested considering private sector solutions, given the available technology, while exploring policy options. He recommended ensuring that these avenues are also explored.

- 15.** Director Williamson re RIDOT Solicitation for Projects to be added to the State's Transportation Improvement Plan (STIP)

Teixeira/Sweeney- Voted unanimously to support the list of projects submitted to the State Transportation Improvement Plan (STIP).

Director Williamson reported that the State is requesting municipalities to submit their project lists for the State Transportation Improvement Plan. The office collaborated with the DPW Director to identify high-priority projects. Several ongoing projects will remain on the list as they are in the design phase, including the Hope Street Project, which will be presented to the Historic District Commission next week for input.

Director Williamson noted that the Town can submit up to five projects. One proposed amendment is for sidewalk improvements on both sides of Metacom Avenue from Chestnut Street north to the Warren town line, particularly to enhance pedestrian access for residential areas. Additionally, new sidewalks are proposed on Metacom Avenue from Chestnut Street south to Mt. Hope Avenue to connect existing sidewalk segments.

She explained that another priority project is a roundabout at the Ferry Road and Metacom Avenue intersection near Roger

Williamson University. This project was previously on the list but was removed. Given ongoing traffic issues and confusion at the intersection, Director Williams emphasized the need for further study and traffic-calming measures.

Vice Chairwoman Parella expressed concerns about the installation of roundabouts. Director Williamson acknowledged that the project would require extensive design, engineering, and review, similar to other transportation projects. She noted that roundabouts take time to develop. Councilman Ley referenced a Newport project that took one to two years to complete and ongoing discussions about a proposed roundabout in Wickford.

Director Williamson emphasized that while roundabouts require an adjustment period, they are effective in reducing serious accidents. She also highlighted the need for traffic calming measures on Metacom Avenue between Mt. Hope Avenue and Ferry Road, referencing a recent editorial from a resident calling for solutions. She noted that whether it be a roundabout or another traffic-calming measure, the project remains part of a long-term 10-year plan and will require State approval to advance

Discussions ensued about evaluation criteria and process submitting.
