NOTES:

Lina Amaral of 19 Second School Street, is requesting an accessible parking space be created in the vicinity of her residence. I spoke with Ms. Amaral regarding her request and responded to the residence to assess the location and parking conditions.

Upon review, it was determined that the residence has available off-street parking for one vehicle. After further review with DPW Director Parella, it was determined that the request does not meet the established criteria necessary for approval of a designated accessible parking space. The purpose of an accessible parking space is to provide parking accommodation in situations where no off-street options exist. Please see photos on second page.
