The applicant has submitted a revised version of the final plat (see Exhibit A) that changes Wiesen Way from a 60-foot public right-of-way to a private road to be owned and maintained by the homeowner's association.

The subject property is part of a former agricultural tract. The property is largely undeveloped, save an apparent energy installation near its northwest corner.

Final Plat

Bartonville Development Ordinance (BDO) Section 2.5.g lists the criteria of approval for a preliminary plat:

1. The plat substantially conforms with the approved preliminary plat or other studies and plans, as applicable;
2. The complete engineering/construction plans for all required public improvements and Town utilities have been submitted to the Town for review/approval by the Town's Engineer (whether specifically stated or not, final plat approval shall always be subject to any additions and/or alterations to the

engineering/construction plans as deemed necessary by the Town Engineer, as needed, to ensure the safe, efficient and proper construction of public improvements within the subdivision); and

3. The plat conforms to applicable zoning and other regulations.
4. The plat has been approved by the Permitting Authority, as defined in Chapter 285 of the Texas Administrative Code, in accordance with Title 30, Texas Administrative Code, Chapter 285, Section 285.4(c) relating to the review of subdivision plans prior to the application for a permit for an on-site sewage facility.

The Bartonville Town Council approved the Knight's Landing Preliminary Plat with conditions on February 20, 2024. The submitted final plat conforms to the conditionally approved preliminary plat, which has been designed to create 15 legal lots totaling 101.467 acres. The resulting lots will range from 6.003 to 8.381 acres. The applicant previously submitted construction plans with the previous final plat application. The construction plans are under review by the Town Engineer; with the road becoming private, the only public improvement in the revised development is the public water line to be located within the 15' water easement along Wiesen Way. The zoning district for the subject property is Residential Estates 5 (RE-5), which has a 5-acre minimum lot size. The proposed resulting lots will exceed the zoning district standards for minimum size and lot dimensions. In order to meet all conditions from the preliminary plat approval, the plat and accompanying planning materials shall be reviewed and approved by the registered sanitarian for the Town of Bartonville prior to final plat recordation.
