X. Scheduled Matters from the Floor (if any)

XI. Reports by: Departments, Committees, Boards

XII. Unfinished Business

A. Ordinance 2026.09/455- Consider the 2nd reading and enactment of Ordinance 2026.09/455, a Workforce Housing Payment in Lieu of Taxes (PILOT) Ordinance.

McGhee explained that the ordinance is intended to support workforce housing for households that do not qualify for traditional affordable housing programs but may not be able to afford current market-rate housing. The PILOT program provides qualifying developments with a predictable annual service charge based on rental income in lieu of traditional property taxes.

Motion by Commissioner Money, supported by Commissioner George, to approve the second reading and enact Ordinance 2026.09/455, Workforce Housing Payment in Lieu of Taxes. Motion carried 4-0.

B. Unified Development Code Amendments – Second Reading and Scheduling of Second Public Hearing

Consider the second reading of the following proposed amendments to the City of Buchanan Unified Development Code and schedule the second public hearing for October 26, 2026:

- 1) Ordinance No. 2026.10/456 – Map Amendment (Rezoning), East Third Street and Skyline Drive – N Natural to I Industrial.

Staff explained that the property was previously industrially zoned and was inadvertently designated N-Natural during an earlier zoning map update. The proposed amendment would restore the I-Industrial designation. Staff stated that the change would not impact the existing trail and that the property's topography makes future development unlikely.

Motion made by George, supported by Vigansky, to approve the first reading of Ordinance 2026.10/456, rezoning the subject property from N-Natural to I-Industrial, and schedule the second public hearing for October 26, 2026. Roll call votes carry unanimously.

- 2) Ordinance No. 2026.10/457 – Downtown Design Review Overlay District.

Staff reviewed the proposed amendments, which provide additional structure and consistency for the City's downtown design review process. The ordinance establishes the Downtown Design Review Overlay District, clarifies the purpose and review process, renames the Design Review Committee, establishes the Planning Commission as the appeal body, and provides standards for reviewing applications. Commissioners thanked staff, the Planning Commission, and the Design Review Committee for their work on the proposed amendments.

Motion by Commissioner Vigansky, supported by Money, to approve the first reading of Ordinance 2026.10/457, amending the Unified Development Code regarding the Downtown Design Review Overlay District, and schedule the second public hearing for October 26, 2026. Roll call votes carry unanimously.

- 3) Ordinance No. 2026.10/458 – Fencing, Lighting, Screening and Landscaping Standards.

Staff explained that the amendment cleans up conflicting and unclear language in the Unified Development Code. Changes include permitting chain-link fencing in certain side and rear yards, clarifying fencing requirements, establishing lighting standards, and revising landscaping and tree-related requirements to make them more practical and understandable.

Motion by Commissioner Money, supported by Vigansky, to approve the first reading of Ordinance 2026.10/458, amending the Unified Development Code regarding fencing, lighting, screening, and landscaping standards, and schedule the second public hearing for October 26, 2026. Roll call votes carry unanimously.

- 4) Ordinance No. 2026.10/459 – Sign Standards.

Staff explained that the amendment addresses inconsistencies and unintended consequences discovered following adoption of the Unified Development Code and more clearly identifies exempt and regulated signs and applicable dimensional standards.

Motion by Commissioner Vigansky, supported by Commissioner Money, to approve the first reading of Ordinance 2026.10/459, amending the Unified Development Code regarding sign standards, and schedule the second public hearing for October 26, 2026. Roll call vote carry unanimously.

- C. **Support for Buchanan Area Senior Center Millage Funding Distribution-** Consider approval of a letter to the Berrien County Board of Commissioners supporting the Buchanan Area Senior Center's position that the current equal seven-way distribution of Berrien County senior center millage funding remain in place.

The Commission considered a letter to the Berrien County Board of Commissioners supporting the Buchanan Area Senior Center's position that the current equal seven-way distribution of Berrien County Senior Center Millage funding remain in place. McGhee explained that the letter followed the presentation made by Senior Center representatives at the previous City Commission meeting.

Motion by Money, supported by George, to approve the letter to the Berrien County Board of Commissioners supporting the Buchanan Area Senior Center's position that the current equal

seven-way distribution of Berrien County Senior Center Millage funding remain in place. Roll call votes carry unanimously.

XIII. New Business

- A. FY 2027 Lead Service Line Replacement- Engineering Service Agreement** - Consider approval of the Professional Services Agreement with Prein & Newhof, Inc. for engineering design, bidding assistance, and construction-phase services related to the City's FY 2027 Drinking Water State Revolving Fund (DWSRF) Lead Service Line Replacement Project. The project is anticipated to replace approximately 200 lead/galvanized water service lines throughout the City. The Commission considered a professional services agreement with Prein & Newhof for engineering design, bidding assistance, and construction-phase services associated with the City's FY 2027 Drinking Water State Revolving Fund Lead Service Line Replacement Project. City Manager McGhee stated that the project is anticipated to replace approximately 200 lead or galvanized water service lines, with the initial work focused primarily in the Liberty Heights area. Funding is anticipated through a State Revolving Fund loan at zero percent interest over 40 years with 10% principal forgiveness.
- Motion made by George, supported by Vigansky, to approve the Professional Services Agreement with Prein & Newhof, Inc. for engineering design, bidding assistance, and construction-phase services for the FY 2027 DWSRF Lead Service Line Replacement Project. Roll call votes carry unanimously.*
- B. Re-Award of 2026 General Paving Work** – Consider re-awarding the 2026 general paving work to Astrong Construction in an amount not to exceed \$125,000, with the City providing traffic control during the work. The revised proposal would allow the paving work, including Alexander Street and several other locations, to be completed during the remaining 2026 paving season rather than being delayed until spring 2027. Staff further recommends authorizing the City Manager to execute the necessary contract documents and close out the prior award to Rieth-Riley Construction.
- McGhee explained that the contractor originally awarded the project would not be able to complete the work during the 2026 paving season. Because of the condition of Alexander Street and the risk of additional deterioration over the winter, staff negotiated with A Strong Construction to complete the work during the current paving season while remaining within budget.
- Motion by Money, supported by George, to re-award the 2026 General Paving Work to A Strong Construction in an amount not to exceed \$125,000, authorize the City to provide traffic-control materials during the work, authorize the City Manager to execute the necessary contract documents, and close out the prior award. Roll call votes carry unanimously.*
- C. Introduction of Ordinance No. 2026.11/460, Map Amendment (Rezoning), 1106 Victory Street**- Consider introduction of Ordinance No. 2026.11/460, a proposed map amendment to rezone the City-owned property located at 1106 Victory Street from N Natural to NE Neighborhood Edge, and direct staff to schedule the public hearing and first reading for October 26, 2026, following Planning Commission review and recommendation. The Commission considered the introduction of Ordinance 2026.11/460, a proposed map amendment to rezone the City-owned property located at 1106 Victory Street from N-Natural to NE-Neighborhood Edge.
- Staff explained that the vacant parcel had previously been designated for park/open-space purposes and that the rezoning would allow the property to be used for housing as part of development activity occurring on the City's north side.

Motion made by Money, supported by Vigansky, to introduce Ordinance 2026.11/460, a proposed map amendment to rezone 1106 Victory Street from N-Natural to NE-Neighborhood Edge, and direct staff to schedule the public hearing and first reading for October 26, 2026, following Planning Commission review and recommendation. Roll call votes carry unanimously.

XVI. Executive Comments

A. City Manager Comments

City Manager McGhee reported New City Hall office hours of 8:00 a.m. to 4:30 p.m. had begun. Staff would issue public information warning residents about the scam and emphasize that the City would not send invoices directing payment through unfamiliar online links. A City newsletter would begin being included with water bills to provide information on important dates, elections, seasonal services, and other City activities. Absentee ballots had been mailed for the upcoming election. B. Commissioner Comments

Commissioners discussed the question raised during public comment regarding water and sewer rates, infrastructure costs, past and current capital improvements, and efforts to reduce system costs and water loss.

Commissioner Vigansky addressed the question raised during public comment regarding water and sewer rates. He discussed the City's prior decision to implement annual rate increases, the high cost of replacing aging wastewater infrastructure, and the consequences of deferred maintenance. He stated that he has discussed the possibility of reducing or ending the annual increases with the City Manager but noted that doing so could delay infrastructure improvements needed.

Commissioner George announced the Buchanan Fire Department Blood Drive scheduled for October 16 from 1:00 p.m. to 5:30 p.m.; discussed an upcoming Feeding America mobile food distribution; and recognized RAM Love for its service to the community.

Commissioner Money thanked community members involved in local events and announced that he and other Buchanan-area veterans would be participating in an Honor Flight to Washington, D.C.
