2. **Conditions.** The Planning Commission may require reasonable conditions in conjunction with approval of any special land use. The conditions may include conditions necessary to ensure that public services and facilities affected by a proposed land use or activity will be capable of accommodating increased service and facility loads caused by the land use or activity, to protect the natural environment and conserve natural resources and energy, to insure the compatibility with adjacent uses of land, and to promote the use of land in a socially acceptable and economically desired manner. Conditions imposed shall consider all of the following:

A. Be designed to protect natural resources, the health, safety and welfare, as well as the social and economic well-being of those who will use the land use or activity under consideration, residents and landowners immediately adjacent to the proposed land use or activity, and the community as a whole.

B. Be related to the valid exercise of the police power and purposes which are affected by the purposed use or activity.

C. Be necessary to meet the intent and purpose of the zoning regulations: be related to the standards established in the Ordinance for the land use or activity under consideration; and be necessary to ensure compliance with those standards.
