

## **Buchanan Water Monthly Report for March 2025**

- We completed the M.O.R. and two sets of Bacti samples to stay in compliance with EGLE.
- I inspected 157 houses for the CDSMI program from EGLE.
- We marked 87 different addresses for Miss Dig. Water, Sewer and Storm Drains we marked at each address.
  - Responded to 12 service calls from residents.
    - I assisted with the downtown construction project. Helping figure out water and sewer lines.
- Had many interviews for the water operator job.
  I hired a local young man, who I think will be a great fit in the water dept.
- I attended a few meetings about the water/sewer policy. These haven't been updated in years.
