
City Council Regular Meeting

DEPARTMENT: Public Works

FROM: Errick Thompson, P.E., CFM®, Director

MEETING: December 9, 2024

SUBJECT:

Consider approval of a minute order authorizing the City Manager to modify pavement markings and signage along S. Warren Street Pavement Marking and Signage Improvements with Enhanced Trail and Shared Use Path Connections at an estimated cost of \$8,500, in accordance with Council Policy 17. *(Staff Contact: Errick Thompson, Director of Public Works)*

SUMMARY:

Mayor Pro Tem McClendon presented a request to 1) evaluate removal of the raised concrete island that obstructs a portion of the dedicated bike lane in the vicinity of the Bufford / S. Warren intersection, 2) improve connectivity for cyclists between the Mayor Vera Calvin Plaza and the shared use path off Tinker Trail that leads to Bailey Lake and beyond, and 3) connect the Oak Valley Trail / Shared Use Path to the S. Warren bike facilities via additional signage.

Council Policy 17, Section II (b)(ii) states, "Notify the City Manager, in writing, of the request a least ten (10) business days before any regularly scheduled City Council meeting." This request is presented before the council for discussion and consideration.

The total estimated cost of the outlined scope of work is \$23,000 and includes \$14,500 in pavement marking replacement coincident with other upcoming traffic maintenance. The remaining \$8,500 is the estimated cost of revising the bike lanes on both northbound and southbound S. Warren Street in the block immediately south of Bufford Street where public right of way parking spaces are in conflict with the dedicated on-street bike lanes and signage for the additional trail connections.

If approved, the work is to be funded from the existing Traffic Maintenance operating budget and the work is anticipated to be completed within the next 45 days, pending weather.

RECOMMENDATION:
