Michelle McCullough, P.E., CFM, Deputy Director Development Services/City Engineer Tony McIlwain, Development Services Director Randall Morrison, Director of Capital Engineering Dylan Whitehead, Deputy Director Development Services/Building Official

SECTION II. Executive Summary

The City of Burleson owns and operates public infrastructure comprised of pumping stations, storage facilities, water and sewer pipelines, and roadways that are improved and expanded to meet a fast-growing city's current and future needs. Chapter 395 of the Texas Local Government Code requires the Capital Improvements Program Advisory Committee (CIPAC) to file semiannual reports with the political subdivision. The purpose of the semiannual report is to document the progress of the Impact Fee Capital Improvements Plan (IFCIP) and any perceived inequalities in implementing the IFCIP or imposing the impact fee.

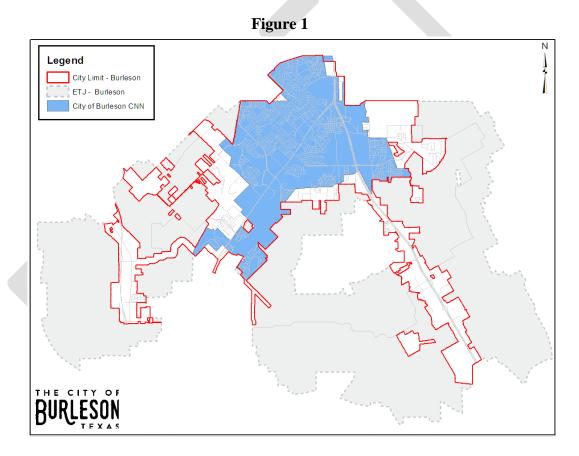

Impact fee studies establish future infrastructure demands and serve as a guide for the 5-year Capital Improvement Plan (CIP), which includes projected projects to be initiated within a 5-year time frame. Not all projects on the 5-year CIP are eligible for impact fee funding. The 5-year CIP is reviewed and updated yearly.

Water/wastewater and roadway impact fees were initially adopted in November 2005 and March 2017, respectively. The water/wastewater and roadway IFCIP was updated and new fee adopted by the City Council on December 11, 2023. The city's masterplan documents and impact fee studies can be found on the city's website at the following link - <u>Capital Improvements Program Advisory Committee | Burleson, TX - Official Website</u>.

Section III Water Impact Fees

3.1 Service Area

The city has the exclusive right to provide retail water within a Certificate of Convenience and Necessity (CCN). The CCN is a regulatory compliance certification that grants the city the exclusive right to provide retail water to a specific geographic area as defined by the Public Utility Commission (PUC). The city's geographic boundary of the water impact fee service area generally includes properties within the city limits, as depicted below in Figure 1. Other retail water providers hold a CCN within the Burleson city limits, including Bethesda Water Supply Corporation, Johnson County Special Water Utility District, and Bethany Special Utility District, which also provide retail water to customers within the city limits of Burleson.

3.2 Capital Improvements Plan

The updated IFCIP includes recommended improvements to the city's water system to provide the required capacity and reliability to meet the projected water demands through 2033. Table 1 represents the existing and proposed water system improvements; however, the updated impact fee analysis only includes the portion of the project's capacity that will be required to serve the projected growth.

Table 1
Cost Allocation for Water Impact Fee Eligible Capital Projects

		Per	cent Utiliz	ation						
Project				10-Year		Current	10-Year

	Total	Estimated Costs	\$ 20,948,000.00						
roposed Water	Facilities - Transmission Lines								
13	Water line along CR 802 identified by the model to provide a water line loop for the area which will provide redundant water for the Mountain Valley development.	12"	\$ 965,800.00	WA2503	Pending	Pending	Pending	Pending	0%
14	Water lines from Dobson Road to the Hidden Vista development will provide water looping for this area.	8"	\$ 457,500.00	WA2403	Under Design	20%	\$ 126,727.00	Pending	0%
1	Water line along Hulen St. to provide transmission capacity to the LPP from the Hulen Low Pump Station. This project is included in the Hulen St. widening project.	16"	\$ 3,058,800.00	ST2306	Under Design	30%	Part of overall contract	\$ 2,594,000.00	0%
5	Water line along future Hulen St. extension from Wilshire Blvd (SH 174) to John Jones (FM 731). This improvement will shift a portion of the HPP to the LPP.	12"	\$ 1,157,200.00	WA2504	Pending	Pending	Pending	Pending	0%
Offsite Water Supply from Fort Worth. Fort Worth's consultant is currently design a transmission line down to Burleson that will provide additional water capacity to support future growth and Burleson water customers		24"	\$ 5,501,000.00	WA2306	Under Design	60%	\$	15,680,293.00	0%
	Total	Estimated Costs	\$ 11,140,300.00						

3.3 Revenue

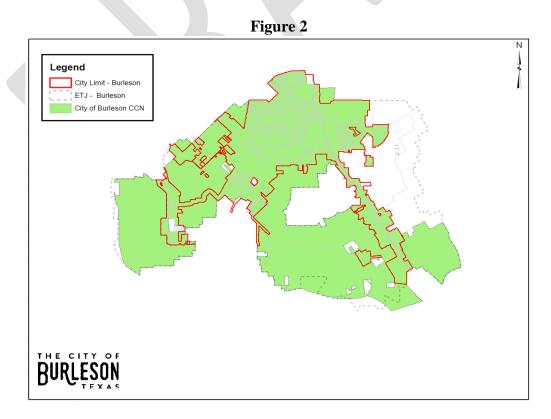

Water impact fees are assessed based on the date the plat was filed and collected prior to the issuance of a building permit. For development that occurs without platting, the assessment and collection are made prior to the building permit. Table 3 summarizes the fees collected from October 1, 2024, to March 31, 2025, broken down by residential and commercial land use types.

Table 3 Water Impact Fees								
Description	Residential	Commercial	Total					
Impact Fee Earned	\$133,824.00	\$99,828.00	\$233,652.00					
Offsets/Credits Earned	\$0.00	\$0.00	\$0.00					
Net Amount Collected	\$133,824.00	\$99,828.00	\$233,652.00					

Section IV Wastewater Impact Fees

4.1 Service Area

Similar to the water CCN, the City has the exclusive right to provide retail wastewater within a Certificate of Convenience and Necessity (CCN). The City's geographic boundary of the wastewater impact fee service area generally includes properties within the city limits and the city's extraterritorial jurisdiction (ETJ), as depicted below in Figure 2. Johnson County Special Water Utility District is the only other retail wastewater provider at this time.

4.2 Capital Improvements Plan

The updated IFCIP also includes recommended improvements to the city's wastewater system to provide the required capacity and reliability to meet the projected water demands through 2033. Table 4 represents the existing and proposed wastewater system improvements; however, the updated impact fee analysis only includes the portion of the project's capacity that will be required to serve the projected growth.

Offsets/Credits Earned	\$0.00	\$0.00	\$0.00					
Net Amount Collected	\$97,950.99	\$42,649.00	\$140,599.99					

Section V Roadway Impact Fees

5.1 Service Area

For roadway impact fees, the City is divided into four Service Areas. Roadway Impact fees can only be used on eligible projects within a given Service Area. Below is a graphical representation of the Service Areas within the City of Burleson.

5.2 Capital Improvements Plan

Recommended improvements to the city's roadway network were included in the updated IFCIP to support the required capacity and reliability to meet the projected traffic demands through 2033. Table 7 includes roadways within the current adopted CIP eligible for impact fee funding. Maps with corresponding IDs and a complete list of the roadways included in the adopted impact fee study are included in Exhibit B.

Area C	\$11,007.92	\$174,700.50	\$185,708.42					
Area D	\$0.00	\$33,889.92	\$33,889.92					
Net Amount Collected	\$105,006.98	\$342,330.72	\$447,337.70					

5.4 Roadway Impact Fee Credits

The City's Roadway Impact Fee ordinance allows credits to impact fees due when a developer constructs a system facility. A system facility means a roadway improvement or expansion designated in the City's Roadway Impact Fee Capital Improvements Plan. The City Council has approved credits for roadway impact fees for three developments to date, as listed in Table 9. Staff is not aware of any credits that have been approved for water or wastewater credits.

Table 9 Roadway Impact Fees Credits								
Development	System Facility	Impact Fee Credit	Remaining Credit					
Waverly Apartments	Fairfield Parkway	\$238,235.52	\$0.00					
Shannon Creek Apartments/Reverie Single Family	Candler Drive	\$1,105,083.66	\$0.00					
PF Farms Single Family	Lakewood Drive / Greenridge Drive	\$1,814,336.68	\$1,330,341.52					
Net Credits Remaining			\$1,330,341.52					

Section VI Summary of Impact Fees

A summary of the impact fees collected since FY 2019 through FY 2025 is provided in Table 10. FY 2025 is a partial year.

Table 10 Summary of Impact Fees FY2019 - FY2025								
Year	Water	Wastewater	Roadway					
FY2019	\$957,044.23	\$339,707.31	\$666,010.53					
FY2020	\$988,157.79	\$459,834.75	\$922,711.36					
FY2021	\$847,867.74	\$418,289.24	\$811,395.34					
FY2022	\$1,054,627.79	\$605,083.73	\$618,573.42					
FY2023	\$877,994.19	\$611,587.34	\$687,482.70					
FY2024	\$652,340.27	\$442,349.27	\$759,078.10					
FY2025*	\$233,652.00	\$140,599.99	\$447,337.70					
Totals	\$5,611,684.01	\$3,017,451.63	\$4,912,589.15					

^{*}FY 2025 is partial year

Section VII Findings

The Impact Fee Capital Improvements Program Advisory Committee makes the following conclusions:

- 1. The City continues to make progress in the implementation of the capital program.
- 2. Construction costs continue to remain high increasing overall construction costs.
- 3. The adopted water, wastewater, and roadway CIP continue to be an appropriate representation of the upgrades and expansions needed to the City's system facilities in order to accommodate predicted future growth and address existing system deficiencies.
- 4. Collection of impact fees reduces the debt required to construct new water, wastewater, and transportation infrastructure to serve new development.
- 5. The administration of the program has been fair and equitable.
- 6. No perceived inequities are noted in implementing the capital program.
