Notes:

- Controlled Substance Full Scan represents a full analysis, including weight and report of the primary controlled substance in the item or sub-sample.

Quantitative results (purity) are a separate analysis from the identification. Depending on the number of different units submitted as a single item, multiple sub-samples may be required for a representative analysis.

For evidence that must be sub-sampled to meet analytical methodologies, each sub-sample will be treated as an individual unit.

Armstrong maintains a library of reference standards including numerous synthetic drugs.

If a submitted sample contains a controlled substance not already included in Armstrong's libraries, the purchase of a reference standard may be necessary to confirm the identification.

In the event any additional cost is necessary, Armstrong will contact the Client for approval.
- Additional component(s) identified in the same sample will be reported for \$50.00 per additional component per sample.

Additional Component is considered to mean any other potentially significant analyte identified within the results; controlled or non-controlled by the State of Texas.
- Event Charges may be incurred when Armstrong is requested to provide services that require efforts beyond the scope of its standard work-shift. (Mon.- Fri., 7a.m. - 6 p.m.)

Travel Expenses are charged as a Pass Through Cost. Mileage is charged at \$0.70 per mile.
