# Governmental Equipment Replacement Fund

---

## Recommendations

- Set contribution levels beginning with FY 25-26 budget to bring funding level to 70% over five years
- Consider pilot program of potential early replacement
- Continue to fund Fire Apparatus, Ambulances, Police Command and Tactical Vehicles and Streets large equipment with debt (term of debt tied to life of asset)
- Exclusion of non-rolling equipment, except generators

# Review of Current Useful Life Estimates

---

- Staff recommends review of estimated useful life tables of vehicles and equipment
- Coordinate review with external auditors
- After internal review by staff and external auditor, return to the City Council to update useful life tables

# Test Case of Shorter Replacement Cycle for Certain Vehicles

---

- Cities receive a governmental discount for vehicle purchases
- General annual mileage (excluding police Tahoe's) is relatively low
- Resale value in 3-4 years from purchase can be close to purchase price (due to discount)
- Maintenance cost low due to warranty
- Consider a test case to sell 3-5 newer vehicles and analyze life cycle costs

# Next Steps

---

February 3<sup>rd</sup> Council Meeting - Consideration of the purchase of two ambulances

February 3<sup>rd</sup> Council Meeting - Consideration of the purchase of a sewer vacuum truck

February 17<sup>th</sup> Council Meeting - Consideration of ERF Policy

Summer of 2025 – Amend the CIP and/or I&S tax rate to accommodate the inclusion of the vehicles and equipment to the CIP

# Future Steps

Consider the merits of an extended warranty program

Amend the CIP during the budget process to accommodate:

- Additional equipment over \$300,000
- Capital cost increases
- Other capital projects

Evaluate the budgeting strategy of the following categories:

- Computer Equipment
- Fire Equipment
- Fitness Equipment
