COMMUNITY DEVELOPMENT ANNUAL RENEWAL

THE CITY OF
BURLESON
TEXAS | Information Technology
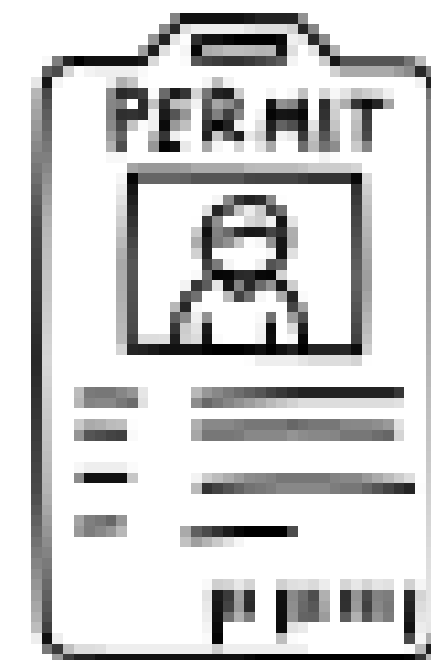

Background

In 2013, the City implemented CentralSquare Community Development software to enhance the operations of the Development Service Department.

This system assists with the following tasks:
- Issuing permits for both residential and commercial applications
- Maintaining records of development subdivisions
- Facilitating online permitting and payment processes

Funding

- Ensures continued support, updates, and ongoing enhancements to the system.

    - Term: 2 years
    - Total Cost: $90,405
        - Year One: $44,500
        - Year Two: $45,905
    - Costs are allocated and will be budgeted annually.
    - Funded through the Technology Services operating budget.

Action

Consider and take possible action on an amendment to a contract with CentralSquare Technologies for TRAKiT Community Development software in the amount of $90,405.

Recommendation

Staff recommends approval of an amendment to a contract with CentralSquare Technologies for TRAKiT Community Development software in the amount of $90,405.
