

INDOOR POOL SLIDE STAIR TOWER REPLACEMENT

PARK BOARD: FEBRUARY 13, 2025

STAFF PRESENTER: ALLISON SMITH, DEPUTY DIRECTOR OF RECREATION

BACKGROUND

- The slide and stair structure are inspected annually.
- In April 2019, the entire stair structure was sand-blasted and repainted.
- The last inspection took place on June 11, 2024.
- The inspector stated that the stair tower needed an additional evaluation on the stairs, safety railing, supports, hardware, fasteners, and all steel components. The slide was closed immediately.
- After an additional inspection was performed, it was determined that while several repairs could be made to the tower, there is no guarantee that these repairs would provide a long-term solution.
- The recommendation from staff is to fully address and resolve the issue through a complete replacement to ensure the safety and functionality of the structure.

QUOTES

Amusement Restoration
Companies, LLC:
\$218,672.50

Safe Slide Restoration:
\$223,444

Landmark Aquatics:
\$291,078.57

RECOMMENDATION AND BUDGET

Recommendation:

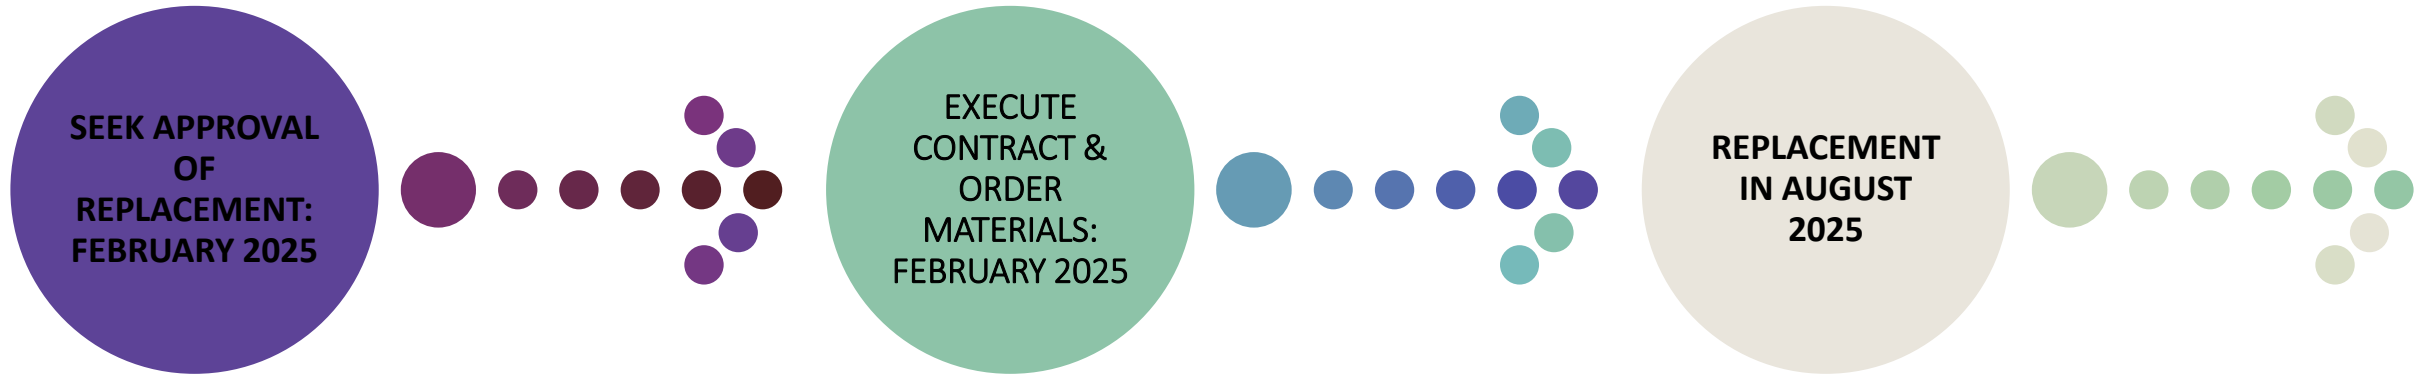

- Move forward with a contract with Amusement Restoration Companies LLC to replace the slide tower.
- Total Quoted: \$218,672.50

Budget:

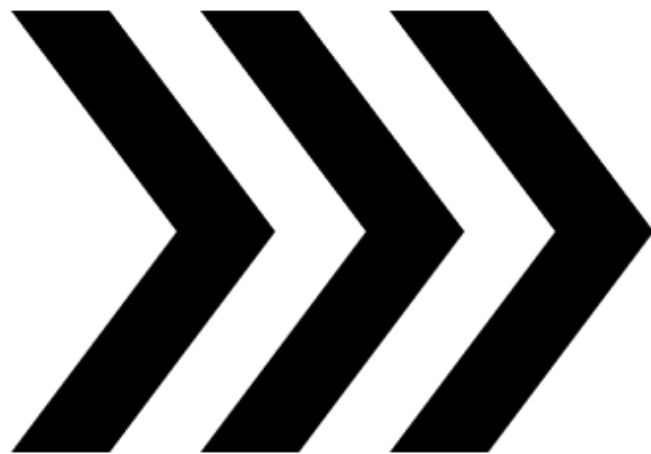

- This item was not originally included in the BRiCk remodel project but has been added. It is being funded through existing capital project funds reallocated from closed projects.

PROJECTED TIMELINE

Due to material lead times and the time required for this replacement, the slide will remain closed throughout the summer.
