What is a Parameters Ordinance?

- A legal ordinance passed by a city council or governing body
- . Authorizes issuance of municipal bonds
- Delegates authority to finalize details within specified parameters
- . Also called a "delegation ordinance"

Key Elements of a Parameters Ordinance

- Authorizes the purpose and general terms of bond issuance
- . Sets limits on:
 - Maximum principal amount
 - . Maximum interest rate
 - Maximum maturity (years)
 - Latest sale date
- Delegates to designated official (e.g., City Manager or Finance Director)

Legal Authority in Texas

- . Texas Government Code Section 1207.007
- . Applies to both new money and refunding bonds
- . Allows delegation of final bond terms for up to 1 year after the ordinance is adopted

Why Use a Parameters Ordinance?

- Market Responsiveness: Time the sale to secure favorable rates
- . Efficiency: Avoid repeated council meetings
- . Control: The Governing body still sets firm boundaries
- Delegated Expertise: Utilizes staff and advisors to manage complex transactions

Example Scenario

- . Council passes a parameters ordinance:
 - Up to \$10 million in bonds
 - Not to exceed 5% interest
 - Term not to exceed 20 years
 - The sale must occur within 180 days
- City Manager authorized to finalize sale within those parameters

Summary Parameters Ordinances

- Parameters ordinances provide flexibility without sacrificing oversight
- . Useful for both refunding and new money issuances
- . Empower cities to act strategically in a dynamic bond market
