
City Council Regular Meeting

DEPARTMENT: Capital Engineering

FROM: Randy Morrison, PE, Director of Capital Engineering

MEETING: December 15, 2025

SUBJECT:

Consider and take possible action on an amendment to a professional services agreement with GFT Infrastructure, Inc. for additional consulting and design services for the Quiet Zone Improvements at CR 714/Dobson Street and UPRR crossing in the amount of \$65,688.00 for a revised total contract amount of \$102,657.00 (Project 167361). *(Staff Contact: Randy Morrison, PE, Director of Capital Engineering)*

STRATEGIC PRIORITY AND GOAL(S):

Strategic Priority	Strategic Goal
 <p>Dynamic & Preferred City Through Managed Growth</p>	2.3 Enhance connectivity and improve mobility 2.4 Implement the city's Capital Improvement Program

SUMMARY:

The additional services within this amendment consist of preparing construction plans, specifications and estimate of probable cost, right-of-way acquisition services, project control and land parcel survey services, and handling coordination and communication with the railroad owner to complete the effort to establish a railroad quiet zone at the CR 714/Dobson Street and UPRR crossing.

Previously, Capital Engineering presented a wayside horn solution for the CR 714/ Dobson Street and UPRR crossing at the February 2024 Council meeting. Council provided direction for Capital Engineering to pursue a traditional quiet zone solution as opposed to the wayside horn solution for this crossing, due to a change in anticipated cost for the wayside horn and a greater desire for a full quiet zone.

RECOMMENDATION:

Consider and take possible action on an amendment to a professional services agreement with GFT Infrastructure, Inc. for additional consulting and design services for the Quiet Zone Improvements at CR 714/Dobson Street and UPRR crossing in the amount of \$65,688.00, for a revised total contract amount of \$102,657.00.
