

Alsbury at John Jones(FM 731) Turn Lanes Project

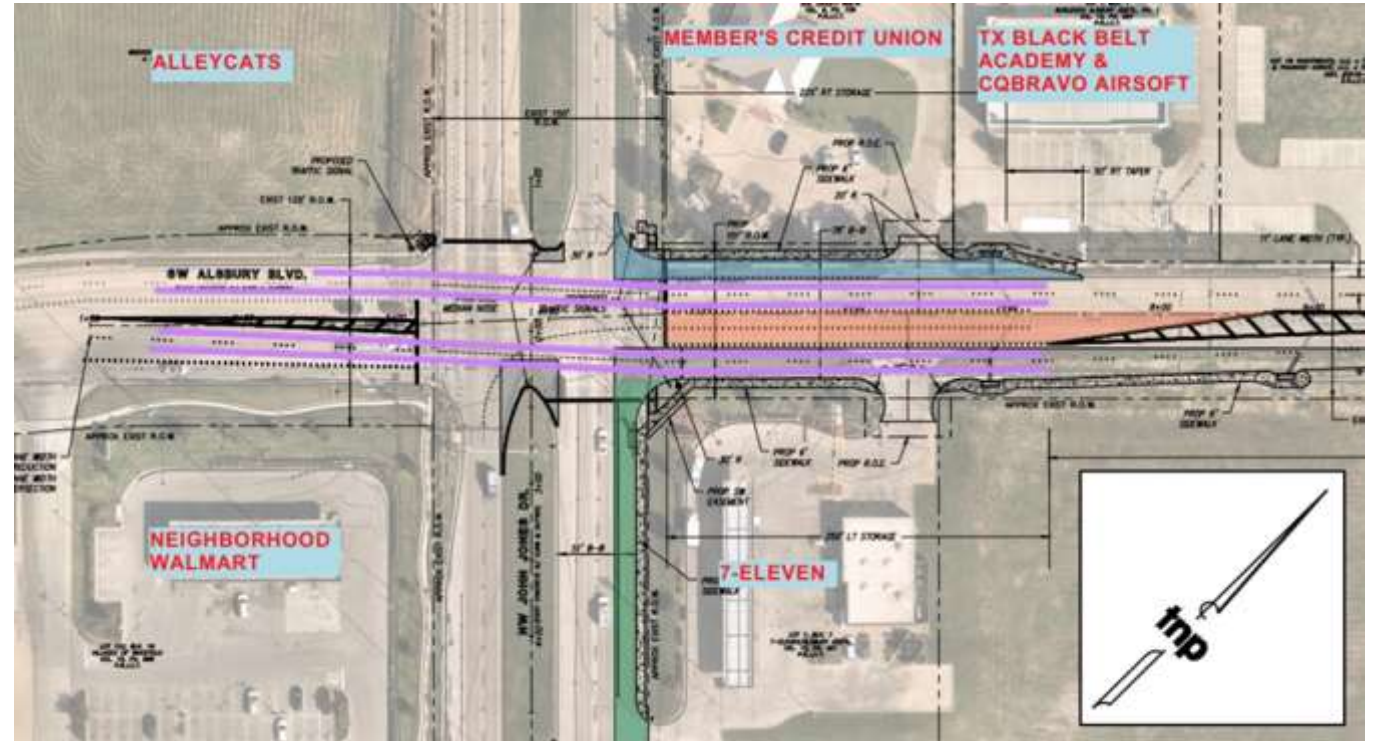

Resolution – LOSA Amendment #1

September 2, 2025

Project Overview

Project Includes:

- Northbound right turn lane onto Alsbury Blvd. (green shading)
- Westbound right turn lane onto FM 731 (John Jones Dr.) (blue shading)
- Dual left turn lanes onto southbound FM 731 (John Jones Dr.) (orange shading)
- Sidewalks and striping the intersection with two through lanes in each direction of Alsbury Blvd. (purple lines)

Amendment Purpose

- The City and the State of Texas/TxDOT executed an Agreement for a Local On-System Improvement Project on February 4, 2025.
- The City and the State of Texas/TxDOT desire to amend the original agreement by adding an additional signal pole at the existing intersection of Alsbury and John Jones.
- Replacing the additional signal pole is estimated at \$33,269.
- The total estimated construction cost is \$639,138, which is within the total funding allocated for the Project.
- City funding 100% of Construction.

Recommended Council Action

Consider and take possible action on a resolution amendment authorizing a Local On-System Agreement with the Texas Department of Transportation (TxDOT) to improve SW Alsbury Blvd. and NW John Jones Drive intersection.
