

Accessology

PRESENTED TO THE CITY COUNCIL ON
MARCH 20, 2023

Overview

- Council approved a budget line item in this fiscal year's budget to begin an update to the City's ADA self-evaluation and transition plan.
- The proposed professional services agreement is to develop a self-evaluation and transition plan that over time will bring the city to better compliance.
- Accessology is an industry leading firm that has provided these services for three decades.

Why is this important?

- Americans with Disabilities Act was signed into law in 1990.
- It is important the city allocates resources to continue to develop and enhance our ADA compliance.
- This project brings awareness for future projects, develops a plan to bring existing structures up to compliance. Additionally, this will enable staff to bid a full transition plan once the assessment is complete.

Council Action

- Approve or deny a professional services contract with Accessology Too, LLC.
