GIS Aerials Interlocal

THE CITY OF BURLESON TEXAS | Information Technology

Background

- NCTCOG has coordinated the Spatial Data Cooperative Program (SDCP) since 2001.
- Burleson has participated since the program began.
- Cities, counties, and public agencies share costs to acquire high-quality geographic data at a lower cost than purchasing individually.
- Aerial imagery is captured annually, with some commercial partnerships providing updates two to three times per year.
- The 2027 imagery supports GIS, development planning, and property and infrastructure reviews.

Interlocal Details

- **Parties:** City of Burleson and the North Central Texas Council of Governments (NCTCOG).
- **Purpose:** Purchase 2027 orthophotography through the Spatial Data Cooperative Program.
- **City use:** Updated aerial imagery for GIS, development planning, and property and infrastructure reviews.

- **Total cost:** $2,073.09.
- **Funding:** Included in the BTX-IT annual budget.

Recommendation

Approve an interlocal agreement between the City of Burleson and the North Central Texas Council of Governments for the 2027 orthophotography in the amount of $2,073.09.
