CONSIDERATION ITEMS:

2.1) Discuss and consider action: Request from C3 Air Works to lease the maintenance hangar and a portion of the FBO building at Burnet Municipal Airport:

City Manager David Vaughn reported that the current lease with Crosby Services is set to expire in January 2026. He noted that Crosby Services has sold the maintenance portion of their business to C3 Air Works, whose ownership has expressed interest in establishing a new lease upon the expiration of the existing agreement.

Mr. Vaughn explained that there are several moving parts involved in creating a new lease agreement, including considerations regarding the CAF and potential locations for each business. He stated that, if Council elects to move forward, the new lease with C3 Air Works would be structured as a one-year contract, consistent with the terms offered to the current FBO.

Councilman Philip Thurman made a motion to proceed as discussed. Council Member Ricky Langley seconded the motion. The motion passed unanimously.

2.2) Discuss and consider action: Amendment to the Honey Rock Development Agreement: D. Vaughn

City Manager David Vaughn reported that developers with Honey Rock Development have requested a rezoning of a portion of their plat. The area in question, located near the highway, is currently zoned C-2 Medium Commercial. Shawn Nelson, a representative of the developer for Honey Rock, stated that they would prefer a significant portion of the area be rezoned to R-3, noting that the remainder of their property already includes an R-3 zone and they would like that designation extended closer to the highway.

Mr. Nelson described the proposed multifamily housing as a higher-end product intended primarily

for retirees. He also explained that Honey Rock plans to construct a sound barrier to buffer highway noise and provide additional privacy.

Council directed City Staff to proceed with creating a zoning designation specific to the type of multifamily housing proposed by Mr. Nelson and Honey Rock Development, rather than an R-3 Multifamily zoning.
