

Item Brief

Meeting Date

July 8, 2025

Agenda Item

Discuss and consider action: Approval of the purchase of bunker gear and other fire related equipment: M. Ingram

Information

A number of sets of bunker gear, hose and other equipment is likely ruined as a result of the fire at reliable tire, resulting in it being unusable. At the time of posting the agenda, staff is still in the process of trying to clean the gear to see if it can be used or not, but if it cannot then we will need to order more bunker gear and hoses, which are costly and have a long lead time. Staff will update Council on their findings at the time of the meeting.

Fiscal Impact

To be determined.

Recommendation

Staff will provide a recommendation at the time of the meeting.
