- Main St 1, 2, & 3 (Site Complete)
- East Tank 1&2 (Site Complete)
- Inks Raw 1&2 (Site Complete)
- Inks WTP Pump 1 Only (2&3 next two yrs)
- Eagles Nest (Design Underway)

Meet James

Water/WW Dept.

Crew Leader, Utility Surveys & Mapping

- James is the go-to guy for just about everything—planning, constructing, running equipment—you name it, he's on it. He's always ready to jump in and help wherever needed.
- He's not just great at what he does—he's also a natural leader who's happy to teach and support his team.
- When he saw how important water maps were, James took it upon himself to learn engineering software and started updating the maps. Pretty impressive!
- Outside of work, 🏞️ He loves **hunting** 🦌, **fishing** 🎣, and **playing softball** ⚾.

👏 Big shoutout to James and the whole Utility Crew for all their hard work!
