

City of Burnet City Council

Item Brief

Meeting Date

February 10, 2026

Agenda Item

Discuss and consider action: Purchase of traffic barricades: T. Mercer

Information

The City regularly conducts road closures to support public safety and large community events such as the Bluebonnet Festival and other City-sponsored events. The City's current inventory does not fully meet operational needs for simultaneous road closures and event support.

To improve traffic control, safety, and event logistics, staff is proposing the purchase of additional Type III traffic barricades that can be reused across multiple departments and events.

Staff is requesting approval to purchase 40 Type III barricades (8-foot, orange/white), high-intensity, two-sided traffic barricades from Centerline Supply, Inc., in accordance with the attached quote.

Fiscal Impact

The total cost of the purchase is \$10,600.00. The cost will be funded using Hotel Occupancy Tax (HOT) funds, as the barricades will directly support tourism-related events and activities, including festivals and special events that attract visitors to the City.

A formal budget amendment to appropriate the HOT funds for this purchase will be presented for Council consideration at a future Council meeting.

Recommendation

Staff recommends approval of the purchase of traffic barricades as presented.
