

Item Brief

Meeting Date

April 22, 2025

Agenda Item

Discuss and consider action: Purchase of a new wide-area mower for Delaware Springs Golf Course: T. Nash

Information

City staff is requesting approval to purchase a new John Deere 1600 Turbo TerrainCut Commercial Wide-Area Mower through United Ag & Turf via Sourcewell Contract #031121-DAC.

This mower is essential equipment used primarily to maintain the rough areas at Delaware Springs Golf Course. The existing 2017 mower, with 2,271 hours, is experiencing a major hydraulic leak from the main pump, with a quoted repair cost of \$15,065.20. Given the machine's high usage and age, even after repair, any future issues could cost an additional \$3,000–\$5,000. Staff has determined that it is not cost-effective to continue investing in repairs for this aging equipment and recommends purchasing a new mower instead.

While a \$3,000 trade-in value is available for the current unit, City staff plans to list the mower on GovDeals, anticipating a higher return than the trade-in offer.

Fiscal Impact

The cost of the mower is \$70,394.94 and will be purchased using the Golf Self-Funded account.

Recommendation

Staff recommends approval of the purchase of the John Deere 1600 Turbo mower from United Ag & Turf.
