

Item Brief

Meeting Date

November 10, 2025

Agenda Item

Discuss and consider action: Approve funding for the purchase and installation of a new fire alarm system at the Central Fire Station: M. Ingram

Information

The current fire alarm system at the Central Fire Station is no longer functional and requires replacement to ensure the safety and protection of personnel, equipment, and facilities. Staff recommends approval to purchase and install a new Fire-Lite fire alarm system from San Saba Fire Safety Equipment, Inc.

The proposed work includes:

- Use of existing wiring, power booster panel, and notification devices to reduce costs.
- Installation of a new Fire-Lite control panel and cellular communicator for remote monitoring.
- Inclusion of one year of monitoring service at no additional charge.
- Complete testing and inspection with the Fire Marshal to ensure compliance.
- On-site training for available staff during testing.
- One-year warranty on all replaced components.

Fiscal Impact

The cost of the fire alarm system is \$18,850 and will be funded through General Fund Cash Reserves.

Recommendation

Staff recommends approval of the purchase and installation of the new fire alarm system for the Central Fire Station with funding provided through General Fund Cash Reserves.
