**SUMMARY:** The North Shore Subarea Plan will ultimately result in a document that will guide the future of the subarea and will be consistent with the city's 20 year comprehensive plan document, Camas 2035. The North Shore Subarea comprises approximately 900 acres located in the northeastern section of the city. The city has acquired key parcels over the last several years that has resulted in public ownership of most of the properties surrounding the lake.

In 2019, the subarea planning work began by selecting a team of professionals who were assembled under a single contract managed by WSP for the entire scope of the subarea plan.

Phase 1: The scope of Phase 1 included a preliminary market assessment, existing conditions memo, a vision statement, and community outreach. Public meetings were halted in March 2020 due to the COVID-19 pandemic. When public meetings on non-essential items were allowed to proceed, staff brought the draft Vision Statement to the Planning Commission then to Council for consideration. Council adopted the **North Shore Vision Statement** on September 21, 2020, by Resolution 20-010. The total expended for Phase 1 was \$94,002, not including city staff time and resources.

Phase 2: The scope of Phase 2 that is described in the attached memo from WSP includes the following:

- Project Management
- Phase 2 Kickoff
- Stakeholder Committees
- Video
- Outreach
- Land Use Alternatives
- Infrastructure Assessment
- Final Subarea Report
- Adoption

### Contingency Tasks
