**Subject: Geotechnical Peer Review #2  
Proposed Hidden Ridge Estates Residential Subdivision  
Northeast Ingle Road  
Camas, Clark County, Washington  
EEI Report No. 20-013-2**

Dear Ms. Sutherland:

**Earth Engineers, Inc. (EEI)** previously issued a Geotechnical Peer Review report for this project on February 3, 2020. In reviewing the July 13, 2019 geotechnical report by Engineering Northwest again, we observed 1 additional issue that we did not note in our first review report and should be clarified when Engineering Northwest issues their revised report.

1. In multiple areas of the report, they make reference to a company called "CNE." For example, they say that "...all footing excavations be observed by a representative of CNE..." We presume that this report was originally written by a different company for a different project and that when the report was re-used for the Hidden Ridge Estates project, they forgot to remove the old engineering firm's name from the report. The correct engineering firm should be referenced throughout the geotechnical report. We also recommend that Engineering Northwest go back through the report and make sure there aren't any other similar carryovers from the old CNE report.

If you have any questions pertaining to this report, or if we may be of further service, please contact Troy Hull at 360-567-1806 (office) or 360-903-2784 (cell).

Sincerely,  
**Earth Engineers, Inc.**

A handwritten signature in black ink, appearing to read "T Hull", is written over a light blue horizontal line.

Troy Hull, P.E  
Principal Geotechnical Engineer
