PUBLIC ENGAGEMENT

JLA

City of Camas
Lake Road/Sierra Street Intersection Improvements
JLA Scope of Work
February 24, 2024

Purpose and Goals: This project entails the development of design alternatives for an intersection improvement project at Lake Road and Sierra Street. The design alternatives will be developed with community outreach, along with review and approval by City Council. The major objectives of the public involvement program are to:

- Raise awareness and understanding of the project and engage local residents, road users and community partners through meaningful public outreach to inform design alternatives.
- Follow a phased process that engages the stakeholders at the right time, identifying when particular stakeholder groups will be interested in the project and/or be able to provide input to inform the project.

Scope of Work: Public Involvement will be overseen by Adrienne DeDona with assistance from JLA support staff. JLA will work collaboratively with the City and the consultant team to coordinate and deliver outreach and communication tasks.

The following tasks represent work to be completed by JLA.

Task 1: Project Initiation & Management

JLA will participate in periodic project coordination meetings, in-person or via video/phone conference, with City staff and the consultant team to review and discuss work products, prepare for community outreach, refine objectives and develop implementation strategies. In addition, JLA will attend one open house planning meeting with the project team. This meeting is assumed to be virtual.

JLA will prepare for and present at one in-person Council workshop to share the outreach results.

JLA will produce monthly progress reports and invoices for submittal to the prime consultant.

Deliverables:

- Monthly invoices and progress reports
- Participation in up to four project check in meetings (virtual)
- Participation in one open house planning meeting (virtual)
- Participation in one in person Council workshop

Task 2: Community Engagement

The overall engagement program will focus on broad general awareness and understanding of the project purpose and need for the general public (“City-wide”). In addition, there will be focused engagement with key stakeholder groups. JLA will work with the City and the consultant team to reach out to a broad spectrum of residents and community partners to share information and gather input. The project team will work collaboratively with the City to craft the public involvement program to ensure a successful project for the City that garners broad community understanding. The following

tasks will be focused on both engagement with a broad, city-wide audience, and with impacted stakeholders.

- **Task 2.1: Consultation with Key Stakeholders:** JLA will coordinate with the city to coordinate and conduct discussions with the following groups at the outset of the project to understand expectations, gather feedback on intersection alternatives and hear the needs and desires for the improved intersection. Key stakeholders to engage in focused, virtual conversations include:
 - *Camas School District*
 - *Bike and pedestrian groups, such as Ride Clark County, Vancouver Bike Club and Clark County Bike and Pedestrian Advisory Group*
 - *Lake Heights HOA*
 - *Lake Pointe HOA*
 - *Lacamas Shore Residents*
 - *Camas Washougal Fire Dept*
 - *Up to Four Impacted property owners*

Assumes the City will assist in providing contact information for key stakeholders. MSI and the City will coordinate and conduct meetings with impacted property owners regarding ROW.

Deliverables:

- Identify key contacts and schedule meetings.
 - Prepare for, conduct and document up to 6 stakeholder interviews (virtual).
- **Task 2.2: Open House and Online Open House/Survey:** With this project being on an arterial road all users will be impacted during construction. With this in mind, JLA will coordinate one open house with a corresponding online open house or online survey to engage a broad, city-wide audience. These events will provide the community with the opportunity to learn about the project and give feedback on the intersection design alternatives being considered by the City. A city-wide mailer will go out to all residents inviting them to participate, as well as social media posts.

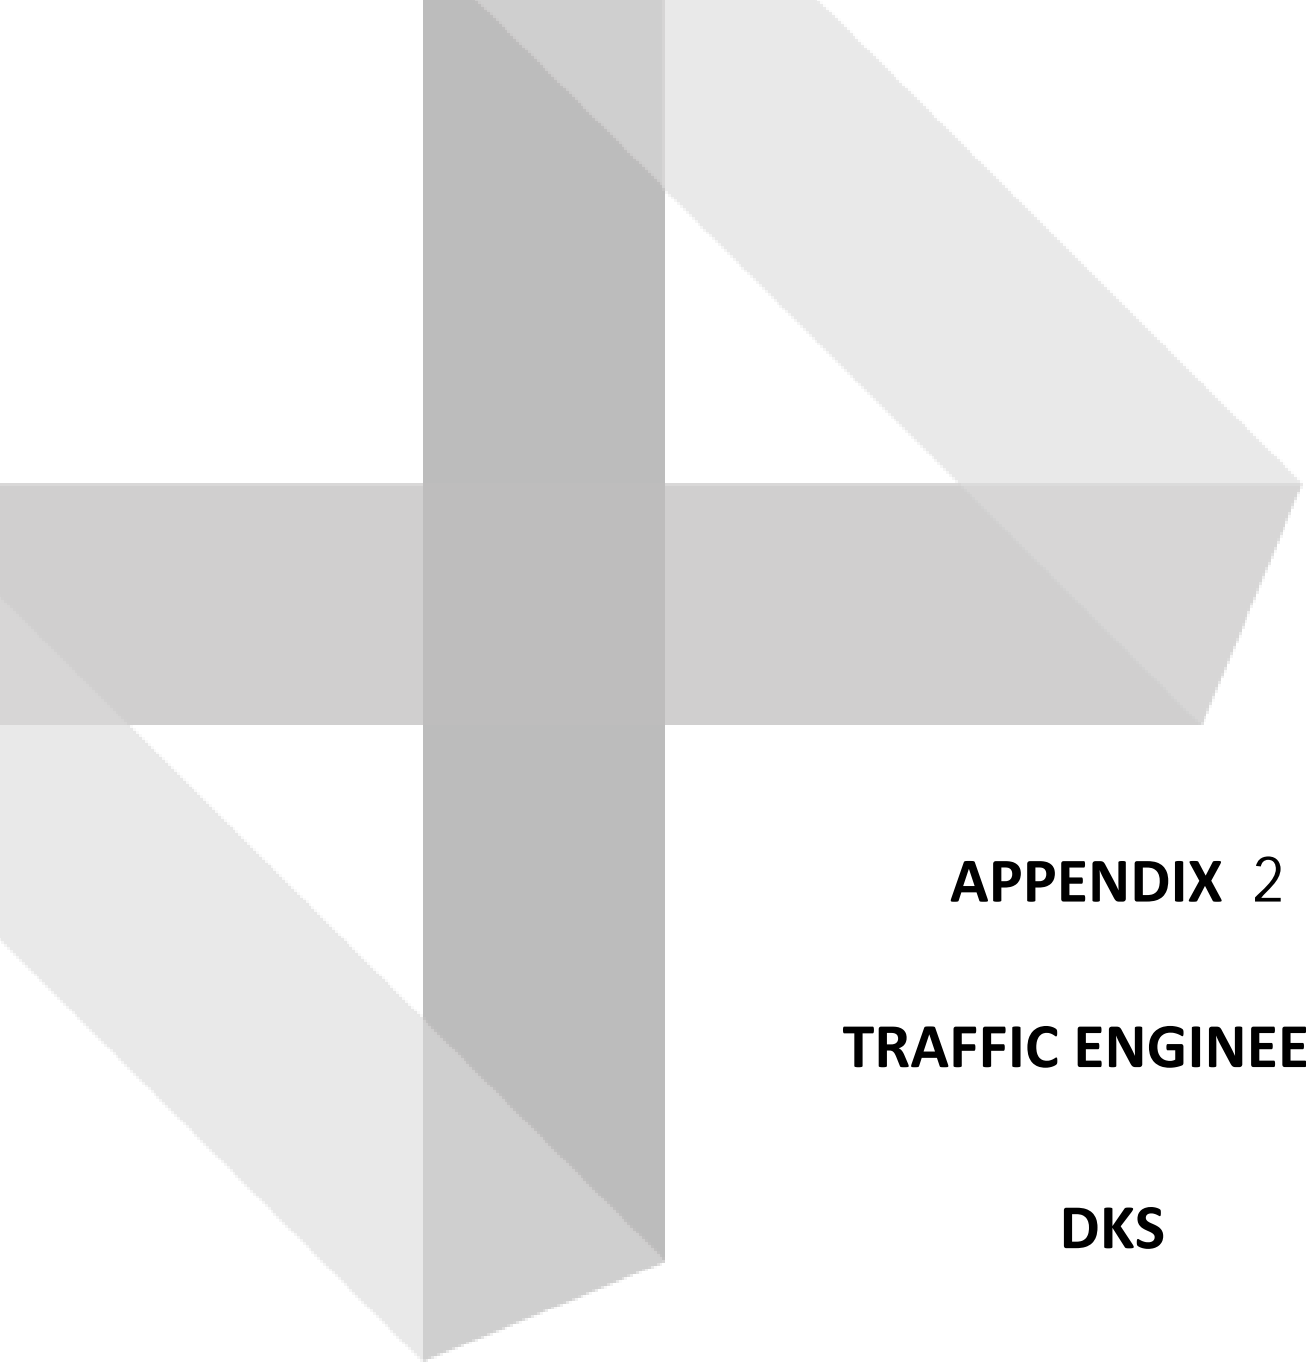

JLA will compile comments and produce a summary report.

Deliverables:

- Prepare for and deliver one in-person open house, including informational displays, comment forms and sign-in sheets
 - Develop one complimentary city-wide online open house or survey.
 - Prepare public involvement summary.
- **Task 2.3: Communications Materials and Content:** JLA will work with City staff and the consultant team to prepare communications materials, such as web content for Engage, social media content, a project fact sheet, two project mailers to go out to city-wide, signage/poster and powerpoint template. Assumes the City will be responsible for production, printing and distribution of all communications, including web and social media content.

Deliverables:

- Web content for Engage (content to be provided to the City for posting)
- Up to three social media posts (content to be provided to the City for posting)
- One project fact sheet
- Two project mailers to be printed and distributed by the City (one to announce the open house and online open house and a second to announce the preferred alternative selection, next steps/timing and anticipated impacts)
- Posters to generate awareness of the project and invite people to participate in the open house or online open house. To be distributed by the City.
- Powerpoint template for use at community and Council presentations.
