James Carothers, Engineering Manager	360.817.7230	jcarothers@cityofcamas.us

PURPOSE: The Camas School District has requested an extension in length of the current Woodburn Elementary School Zone. The School District currently guards the crosswalk at NE Woodburn Drive and Verbena Circle before and after school. The extension of the school speed zone to the west of Verbena Circle will place this guarded crosswalk within the school zone.

The School District contracted Charbonneau Engineering LLC to provide a traffic analysis. The report recommends extending the School Speed Zone 700 feet to the west as depicted below. The report is attached to this agenda item.

Staff finds that the extension of the school zone and the related signage will enhance overall safety and will provide motorists with advanced warning of the crossing.

RECOMMENDATION: Staff recommends adoption of Resolution 20-005.
