Dear City of Camas,

The fact that this tennis bubble is becoming an issue for a specific business tells me that the students themselves are not the focus, and they should be. This bubble will change the direction of tennis at Camas High School both during PE classes and the dedicated boys' and girls' tennis teams. Spring is brutal for outdoor sports and the consistent canceling and rescheduling would come to a stop. This would automatically add to more physical play, better competition and productive practices that will not lean on whether it is raining or not. From a coaching perspective I cannot imagine having so many practices and matches moved or cancelled as it would interrupt the growth of each individual tennis player.

This non-profit entity is going to encourage more youth to participate in sports, increase graduation rates indirectly and impact our community in such a positive way. I see no reason why this bubble should not be built. Nothing says Camas cares like listening to students and their families.
