BACKGROUND: This presentation is to review the financial performance of the City from the perspective of budget to actual, investment performance and status of short and long term debt. The presentation also will provide an economic overview both nationally and regionally to provide context as well as provide the outlook for the next quarter.

SUMMARY: The City of Camas' third quarter performance overall was slightly higher than anticipated. The revenue collections were higher due to continued housing construction growth and a fast pace in housing purchases of new and existing homes. Retail sales from e-commerce has continued with a boost to sales tax receipts. The combination of these economic activities has offset weaker revenue collection in lower charges for services, fines and forfeitures and rental activity. Maintained revenue with spending constraints have enabled the City to maintain or increase fund balances. Overall, the City's cash and cash equivalents assets increased by \$21 million primarily due to \$3.8 from ARPA construction/capital related funds increased by \$5 million and the rest of funds increased with higher revenue and lower expenditures due to COVID.
