

# Notice of Proposed Development

## Camas PFAS Evaluation & Well 13 Treatment

**Description of Proposal:** The Applicant proposes updates to the existing Well 13 facility. The proposed improvements include installing per- and polyfluoroalkyl substances (PFAS) treatment equipment for Well 13 (ion exchange tanks and bag filters), adding a new generator, a building addition for a new electrical room, building addition for a new chemical/well room for a proposed new well, and constructing a new driveway off E 1st Avenue to accommodate a well pump crane truck.
