PURPOSE: This agenda item is to approve the amendment to the current professional services agreement for wetland mitigation monitoring and maintenance, in the amount of \$7,046.00, to be dispersed throughout 2021, to Olson Environmental, LLC. The wetland mitigation maintenance is a requirement of the City’s 10-year US Army Corps of Engineers permit, which was issued as a requirement for the construction of NW Leadbetter Drive. The original contracts covered the 10 years of maintenance and monitoring. The final mitigation report was submitted to the Corps in 2020. This amendment provides for follow-up maintenance until the project receives final approval from the US Army Corps of Engineers.
