This is to whom it may concern;

In regards to putting a gas station car wash mini mart. I would absolutely be one of thee many careless things clark county has done to " improve" the city at the expense of the people's Health and well-being, which if you ask me is pretty messed up to do to people who support and back you up with 100% confidence that you would do the same in return when really you obviously see them to be expendable tools that you use to get money because ultimately that's all it's about money nothing about that gas station car wash Mini Mart is going to help the community the environment wvwhere do people in it except for providing junk food cheap alcohol and tobacco products for ridiculous prices and ridiculously priced car wash and Gas could you definitely can get somewhere else cheaper with better prices and less harmful to the environment, no it's not forget about all those people better be affected by such a thing happening causing elements of the body and mind

For nothing. I find that to be absolutely despicable i dont I think that into it's not a good call to do that given the economy in the way that things are going all over the world it just seems really stupid and dangerous to do.
