As if it wasn't enough that the city of Camas approved the hideous monstrosities going up on the corner of 13th and Goodwin, now a gas station/car wash as well?

I beg the city of Camas to reconsider due to multiple factors including the traffic and environmental considerations. All water in that area leads to the Lacamas watershed which already had issues resulting in water quality in the lake.

And why can't new developments have deeper set backs with landscape design to not only make them more visually appealing but environmentally friendly as well?
