Good Afternoon,

I have some questions regarding the aforementioned projects.

Oak Tree Station Project – I see that a decision was issued on the project, but am not entirely sure how to review the decision. Who can I discuss the status of the project and how can I review the design plans? I started with Evergreen almost a year ago and this particular project has been a topic of discussion, but also just have no clue the overall progress of it.

13th St. Gas Station Project – This one just came into my purview following a couple of community members reaching out to the school district with their concerns. Their concerns are related to the environment, increased traffic, and effect it'll have on students (i.e. cross country runners who will have to traverse a busy driveway, and access to alcohol). I know that their concerns are all addressed by various laws and regulations. However, I'm curious if they've voiced their concerns with the City of Camas yet.

I'm happy to receive information via email or if a phone call would be easier, please contact me at the number in the signature.

Thank you,

Nicole Daltoso, MPH, ASP
