Chris,

I talked to our mill manager (and my boss), Shawn Wood, about this proposal and we are 100% aligned with that as a good compromise. Why don't we keep two of the 10 minute spots for deliveries to the mill and the other two spots could be changed to 2 hour parking? That would work for us and still meet the needs of the mill. That's a good proposal, thanks for thinking of it. The two most northern spots, closest to the mill lobby door would be the preferred spots to keep at 10 minutes.

Thanks,

**Kirk Bristol**

---

What would be the consensus of keeping the nearest 2 spots as 10-min and changing the other 2 spots? How often are more than 2 vendors unloading at the same time?

Chris,

The overall response that I have received from the Georgia Pacific mill is that we would like to keep the 10 minute parking in front of our office. We have several vendors with large box trucks that unload there on a regular basis. Some of their loads are pretty heavy, making parking elsewhere (if those spots are taken) a significant handling problem for them. As such, we would prefer to keep things as they are.

Thanks,

**Kirk Bristol**

Kirk,

Now that you are my contact, you'll get all my questions.

We received a request to modify the parking time restrictions of the spots right in front of the Mill's Visitor's Center. Spots are currently marked 10-min and proposed to be switched to 2-hours.

We'll present this proposal to Council May 14<sup>th</sup>. Would you please notify the right staff to provide comments, if any.

Thanks
